DRIVING DIRECTIONS:

Symantec is pleased to host T10 at the Orlando Marriott Lake Mary hotel. The hotel is approximately 30 miles from the Orlando International Airport (code: MCO), that is served by all major US airlines, and by Virgin Atlantic direct from the UK. If you don't wish to rent a car, the taxi fare is estimated at $80. The hotel also recommends E-Z Time Transportation (http://www.eztimetransportation.com or 407-509-8586, cost ~$90 one-way, ~$149 round-trip)..

The hotel is also approximately 36 miles from Daytona Beach International Airport (code; DAB), that is served by Continental, Delta & United airlines, and in some cases the fares to DAB are reputed to be significantly lower than to MCO.

Attendees from Europe should also investigate flying into Orlando Sanford International Airport (code: SFB). Scheduled service to this airport is available on Icelandair via Reykjavik, and "charter" flights are available most days of the week from several major centers in Europe (including London Gatwick). SFB is in fact the closest airport to the hotel, being only 10 miles distant.

URLs that connect to directions from all three airports can be found below.

The hotel is located in a new and expanding complex that contains a number of restaurants. Other restaurants, and a supermarket, are located just across HE Thomas Jr. Parkway and within easy walking distance. A major shopping mall, Seminole Towne Center, is approximately two miles from the hotel.

There are many attractions in Orlando and the surrounding area, see the URLs below for some ideas, and feel free to contact the host for other suggestions. The Kennedy Space Center Visitor Complex is specifically recommended. Note that the hotel is located about 35 miles from the Disney resorts, and I-4 through Orlando becomes very congested in both directions during rush hours.
