Subject: Forwarding FCP-2 to first public review

Statement: This working draft standard describes the frame format and protocol definitions required to transfer commands and data between a SCSI (Small Computer System Interface) Initiator and Target using the Fibre Channel Physical and Signaling Interface. The second revision includes additional mandatory and optional requirements.

Question: Do you approve of forwarding FCP-2 Rev 04 to NCITS for further processing toward first public review?

Notes:

(1) American National Standards are developed by the voluntary participation of all parties and with the intention and expectation that the standards will be suitable for wide application. Since their use is likewise voluntary, an affirmative vote does not commit an organization or group represented on the committee to the use of the American National Standard under consideration.

(2) If you vote NO or ABSTAIN, your ballot must be accompanied by reason(s) for your position. Provide an electronic copy of your comments with each comment numbered on the ballot form or send them by email to lohmeyer@t10.org.
