Results of Meeting

1. Opening Remarks

John Lohmeyer, the T10 Chair, called the meeting to order at 9:00 a.m., Thursday September 14, 2000. He thanked Skip Jones of QLogic for hosting the meeting.

John said that NCITS Subgroup Membership forms and the T10 Mailing Subscription form were available from the head table. He said that people should use the NCITS forms to insure the NCITS Secretariat has the latest membership information. These forms should be mailed directly to the NCITS Secretariat.

As is customary, the people attending introduced themselves and a copy of the attendance list was circulated. Copies of the draft agenda and general information on T10 were made available to those attending.

- 11.2.3 US vote on FCD 14776-113 (SPI-3)

3. Attendance and Membership

The membership requirements were reviewed. NCITS rules permit one vote per organization. An individual from a new organization must attend at least one T10 plenary meeting as an Observer. He/she may apply for voting membership at this meeting, which becomes effective following adjournment of the meeting. Voting privileges begin upon receipt by the NCITS Secretariat of applicable fees for the membership year.

To maintain membership, organizations must pay the NCITS Service Fee (\$300). The ANSI International Program Fee (also \$300) is billed at the same time.

John briefly discussed the mailing fees. Complete pricing information is contained in the 2000 membership form (available at ftp://ftp.t10.org/t10/mem_form.txt).

John noted that following the July meeting, The JPM Co. had been re-instated bringing the T10 membership up to 39 organizations.

There are also minimum attendance requirements to maintain voting membership on T10. If a member organization fails to attend two of the last three T10 meetings, they are warned that failing to attend the next T10 meeting would result in their membership being terminated.

The Chair said he had sent letters to 3 people from 2 organizations informing them that their membership was in jeopardy due to non-attendance (see 00-022r0) and that their membership would be terminated if they did not attend this meeting. The following organizations were in attendance jeopardy:

KnowledgeTek, Inc.
Panasonic Technologies, Inc.

All of these organizations were present.

The following organizations requested new (or reinstated) membership:

Ancot

Nishan Systems requested new membership following the meeting.

The T10 membership during the meeting was 40 organizations up from 39 organizations following the last meeting and the T10 membership following the meeting was 41 organizations. Enclosure (1) is the list of the people present at the meeting and enclosure (2) is the current T10 membership list.

4. Approval of Minutes - July '00 Meeting - Colorado Springs, CO (T10/00-251r2)

The minutes were approved as written.

5. Document Distribution

Members who have any problems with their mailing subscription should deal directly with Monica Vago (mvago@itic.org) (202) 626-5741.

John Lohmeyer requested that all documents for the next mailing be in his hands in electronic format by 10:30 a.m. on Thursday September 21, 2000. Documents received after this time may go into a subsequent mailing.

John reminded the committee of the requirements for document submission. Since T10 meets its document retention requirements by preparing mailings, documents included in the mailing must be suitable for archiving. This means that native-format and/or Portable Document Format (PDF) electronic originals with proper identification must be submitted.

The electronic copies can be sent directly to John by email (at lohmeyer@t10.org), or they can be transferred by ftp protocol to ftp.t10.org and placed in the /incoming directory. In the latter case, please also send email to John informing him of the file name and location of the file.

Minutes are available on the T10 World Wide Web page (see below), and are distributed to the T10 Reflector.

To be added to the T10 Reflector, send an email to majordomo@t10.org with the line 'subscribe t10' in the message body.

The NCITS Secretariat maintains a World Wide Web page at <http://www.ncits.org/>. LSI Logic maintains a web site on behalf of T10 on a server donated by the SCSI Trade Association at:

<http://www.t10.org/>

The current document register is enclosure (3). The T10 document register is also available at:

<ftp://ftp.t10.org/t10/dr.txt>

6. Call for Patents

This is a regular agenda item to identify any potential patent issues with developing standards and technical reports.

A document is available from ANSI, "Procedures for the Development and Coordination of American National Standards", at no charge. This document is also on the WWW at http://www.ncits.org/help/ansi_sdo.html. Section 1.2.11 contains the ANSI patent policy. Amy Marasco manages patent issues for ANSI and can be contacted at amarasco@ansi.org or 212-642-4954. Gene Milligan has prepared a useful "Handy dandy Technical Committee's Patents Guide", which is available at <ftp://ftp.t10.org/t10/document.99/99-291r0.pdf>.

John presented a foil containing a summary of the ANSI patent policy that Gary Robinson had sent to John. The summary is also included on the Rules and Procedures (plus Patent Information) on the T10 web site.

John asked that anyone who knows of applicable patents contact him. There were no responses to the call for patents.

8. Project Status Reports

8.1 Project Status Summary and NCITS Liaison [Lohmeyer]

John Lohmeyer said that the current T10 project status summary was included in the T10 Information Packages distributed prior to the meeting and will be included in the mailing as usual.

8.2 SCSI Fibre Channel Protocol - 2 (FCP-2) {Project 1144-D} [Snively]

Bob Snively reported on the FCP-2 activities of the Commands, Architecture, and Protocols Working Group (minutes in 00-307). He noted FCP-2 revision 4a is available for the next committee mailing and 00-300r1 describes the changes that are in FCP-2 rev 4a. A letter ballot is anticipated for either FCP-2 rev 5 or rev 6. Bob stated that the target date for forwarding FCP-2 is November 2001.

8.3 SCSI Architecture Model - 2 (SAM-2) {Project 1157-D} [Weber]

Ralph Weber reported that several important proposals for SAM-2 changes have been recommended by the working group and will be considered later in this meeting. He stated that a new revision of SAM-2 will be available in time for the committee mailing.

8.4 SCSI Enclosure Services Amendment #1 (SES AM1) {Project 1212-M} [Elliott]

John Lohmeyer reported that the public review of SES AM1 closes on October 8.

8.5 SCSI Primary Commands - 2 (SPC-2) Status {Project 1236-D} [Weber]

Ralph Weber reported that progress on SPC-2 letter ballot comment resolution is being hindered by lack of sufficient meeting time to review the proposed resolutions. He requested 8 hours of meeting time during the November meeting week. He noted two significant letter ballot resolution agreements that were reached during meetings earlier this week. Support for VPD pages will be made mandatory as will support for specified identifiers in the Device Identifier VPD page. The COPY, COPY AND VERIFY, and COMPARE commands will be made obsolete in SPC-2.

8.6 SCSI Parallel Interface - 3 (SPI-3) {Project 1302-D} [Penokie]

John Lohmeyer reported that SPI-3 is on the NCITS management review agenda for October and he anticipates approval at that time.

8.7 MultiMedia Command Set - 3 (MMC-3) {Project 1363-D} [McFerrin]

Bill McFerrin reported the activities of the MMC-3 working group (minutes in 00-362). He noted that the adjusted MMC-3 schedule plans the T10 letter ballot for March 2001. Bill stated that MMC-3 is requesting 3 days of meeting time in November and January plus one day of meeting time in December.

8.8 Reduced MultiMedia Command Set (RMC) {Project 1364-D} [McFerrin]

Bill McFerrin reported that RMC development is dormant at this time so that work on MMC-3 can proceed.

8.9 SCSI Parallel Interface - 4 (SPI-4) {Project 1365-D} [Penokie]

George Penokie reported on the activities of the SPI-4 working group (August minutes in 00-304 and September minutes in 00-306). George stated that SPI-4 rev 1 will be prepared in time for the next meeting but not in time for the committee mailing.

8.10 SCSI Domain Validation Technical Report (SDV) {Project 1378-DT} [Roberts]

Ron Roberts reported on the activities of the SDV working group (August minutes in 00-303 and September minutes in 00-305).

8.11 SCSI on Scheduled Transfer (SST) {Project 1380-D} [Woelz]

Don Woelz reported that the current revision 4 was reviewed at the last working group meeting (minutes in 00-365). He requested an editing meeting on Monday October 30 with a T10 letter ballot to follow shortly thereafter. He requested a working group meeting on December 6 with T11.

8.12 SCSI Medium Changer Commands - 2 (SMC-2) {Project 1383-D} [Oetting]

Erich Oetting reported that the current document revision is still 0. He solicited thoughts on a proposal for enhancing SMC-2 to handle multiple media types in a changer.

8.13 SCSI Signal Modeling (SSM) {Project 1414-DT} [Aloisi]

Paul Aloisi reported on the activities of the SSM working group meeting (minutes in 00-302). He noted that Larry Barnes is the vice-chair and he (Paul) is the chair. He stated that the next meeting is October 10 and 11 with a future meeting on December 13 and 14.

8.14 SCSI VI Protocol (SVP) {Project 1415-D} [Gardner]

Ed Gardner reported on the SVP work and activities related to SVP in the CAP working group (report in 00-278r1 minutes in 00-307). Ed Gardner and Peter Johansson discussed decisions in process over whether to use SVP or SBP-2 for InfiniBand^(tm) storage access. Ed noted he anticipates a T10 letter ballot on SVP in January 2001.

8.15 SCSI Primary Commands - 3 (SPC-3) {Project 1416-D} [Weber]

Ralph Weber reported that progress on SPC-3 has been delayed by at least four months as a result of the difficulties encountered in resolving comments from the SPC-2 letter ballot. If no further schedule slips are encountered, SPC-3 will go to letter ballot in September 2002.

8.16 SCSI Block Commands - 2 (SBC-2) {Project 1417-D} [Milligan]

Gene Milligan asked John Lohmeyer to change the forwarding date for SBC-2 to July 2001 to match the schedule approved by T10 during the March meeting. Gene Milligan reported on the CAP activities related to SBC-2 (minutes in 00-307). In the absence of any objections SBC-2 revision 1 was accepted as the committee draft. Gene reminded the committee that SBC-2 proposal cutoff is November 2000.

8.17 Object-based Storage Devices Commands (OSD) {Project 1355-D} [Milligan]

Gene Milligan reported that the OSD working group will meet follow the T10 plenary meeting. Gene proposed that new OSD proposals be cut off in February 2001 with letter ballot in August 2001. In the absence of any objections, the OSD working group was authorized to approve its own changes in the OSD draft since at the moment it was not practical for T10 to provide a time for the OSD ad hoc before the plenary in the T10 meeting week.

8.18 SCSI Stream Commands - 2 (SSC-2) {Project 1434-D} [Peterson]

In the absence of Dave Peterson, John Lohmeyer reported that the SSC-2 forwarding date has been set for November 2001. He noted that the reason for the schedule delay is work on a tape model that reduces or eliminates the assumed state interactions between initiators and tapes.

8.19 SCSI Passive Interconnect Performance (PIP) Technical Report (PIP) {Project 1439-DT} [Ham]

Bill Ham reported on the activities PIP working group (minutes in 00-301).

9. Old Business

9.1 IEEE Usage of T10 Vendor ID List [Lohmeyer]

John Lohmeyer reported NCITS raised no objections to having T10 assign vendor IDs as per the proposal made by the committee in May and July. While the issue had been referred to NCITS council to make sure there are no legal exposures, none are anticipated. He stated that T10 should close discussion of this topic.

9.2 T10 Style Guide and Templates Project Report [Evans]

The following motion was deferred from the July meeting: That T10 adopt in principle the ISO/IEC Directives, Part 3, Rules for the structure and drafting of International Standards as the T10 style guide with the intent that T10 develop a cover style guide containing references to the ISO/IEC directives. The motion passed on a vote of 19:1:1:19=40. Gene Milligan took an action item to create the T10 style guide document with links to the corresponding ISO/IEC MSword templates (dot files).

9.3 REQ/ACK offsets for Ultra320 (00-271) [Leshay]

This item was covered under 10.1.1.

9.4 Make PPR Pace_On bit reserved (00-292) [Penokie]

This item was covered under 10.1.2.

10. New Business

10.1 Actions on August SPI-4 Working Group Recommendations

10.1.1 Assertion handshaking protocol for Ultra320 SCSI (00-311r1) [Evans and Leshay]

George Penokie reviewed the content of 00-311r1, 00-326r1, 00-3250, and 00-321r1. George Penokie moved that 00-311r1, 00-326r1, 00-3250, and 00-321r1 be approved for inclusion in SPI-4. Bill Galloway seconded the motion. The motion passed on a vote of 25:0:1:14=40.

10.1.2 Making PPR Pace_On bit reserved (00-292r2) [Penokie]

John Lohmeyer reported on the results of the letter ballot (see 00-024). Gene Milligan moved to reconsider the results of the letter ballot. The move to reconsider failed on a vote of 4:9:12:15=40. Gene Milligan stated that further consideration of the proposal would be out of order in light of the failure to pass the motion to reconsider.

John Lohmeyer, noting that the letter ballot had passed with some comments, moved that T10 accept 00-292r2 as resolving the letter ballot comments. Ed Gardner seconded the motion. The motion passed on a vote of 19:0:3:18=40.

10.1.3 Packetized streaming clarification (00-326r1) [Galloway]

By the unanimous consent of the committee, this issue was considered in 10.1.1.

10.1.4 Vendor unique IU type (00-325r0) [Galloway]

By the unanimous consent of the committee, this issue was considered in 10.1.1.

10.1.5 Disabling Precompensation (00-321r1) [Moore]

By the unanimous consent of the committee, this issue was considered in 10.1.1.

10.2 Actions on September SPI-4 Working Group Recommendations

10.2.1 Getting Training Started in SPI-4 (00-324r3) [Penokie]

George Penokie moved that 00-324r3 be approved for inclusion in SPI-4. Bill Galloway seconded the motion. The motion passed on a vote of 23:0:2:15=40.

10.2.2 Proposal for revision of the timing tables and definitions in SPI-4 (00-323r4) [Milligan]

Gene Milligan moved that 00-323r1 be approved for inclusion in SPI-4. Bill Galloway seconded the motion. The motion passed on a vote of 10:1:10:19=40.

10.2.3 ATN timing for Paced Transfers (00-343r2) [Galloway]

Bill Galloway moved that 00-343r2 be approved for inclusion in SPI-4. Gene Milligan seconded the motion. The motion passed on a vote of 14:1:10:15=40.

10.2.4 Proposed Changes for SPI-4 (00-246r7) [Aloisi]

George Penokie noted that the approved content of 00-347r0 had been incorporated in 00-246r7.

Ed Gardner moved that 00-246r7 be approved for inclusion in SPI-4. Paul Aloisi seconded the motion.

George Penokie provided an overview of the proposal, indicating that there are four receiver masks in the proposal (one for the clock and 3 for various receiver options) and that two of the four masks are mandatory. Bill Ham presented a discussion opposed to the motion (00-366). George Penokie stated that the working group has exercised due diligence and sending this back to the working group will not accomplish anything. In response to issues raised by Dal Allan, Paul Aloisi stated that the working group has not received enough input from the systems groups to assist in making choices.

Dal Allan requested a roll call vote. The roll call vote failed on 7:13:7:13=40. The details of the roll call vote were as follows:

11.2.2 Non-Automatic adoption of ISO/IEC Standards as American National Standards

John Lohmeyer reported that NCITS has a policy of automatically adopting approved ISO/IEC standards as ANSI standards within the scope of NCITS. John Lohmeyer moved that T10 request that NCITS not automatically adopt international standards in our subject area as American National Standards. Larry Lamers seconded the motion.

George Penokie asked why T10 should short-circuit the automatic process. The committee discussed whether ISO/IEC standards would be automatically adopted as American National Standards.. John noted that the NCITS Secretariat recommendation to T10 is to disable automatic adoption. The motion passed on a vote of 7:4:5:24=40.

12. Liaison Reports

12.1 T11 Liaison Report [Wanamaker]

Bill Ham reported that FC-PI is out for letter ballot. Bob Snively reported that FC-SB-2 is out for letter ballot.

12.2 T13 Liaison Report [Milligan]

Gene Milligan presented the T13 liaison report (minutes in T13/E00147). Gene noted there was information in the minutes regarding patent issues.

12.3 SFF Industry Group [Allan]

Dal Allan provided the following electronic report:

The first draft of SFF-8452 SCA-3 for Low Disturbance Insertion was presented by Bill Ham.

The first draft of SFF-8461 HSSDC-2 is anticipated to be submitted in November.

SFF-8551 CD ROM Form Factor passed the ballot for publication.

SFF-8009 68-pin SCSI Unitized Connector for Cabled Drives will be re-opened as a development project to add recent new variations.

The ballot to approve a change in the meeting cycle to hold plenaries twice a year, in May and November, passed. All other activities (balloting, mailings, minutes) will continue on a 2-monthly cycle.

The ballot on distributing INF-8350i (formerly STA Harbor) as an Information specification passed.

The Fuji5 Rev 1.0 document will be distributed as the INF-8090i Rev 5.

The review of the SFF web site asked for a few minor changes, and it is expected to go live early in October.

Mark Evans noted that SFF-8009 has been reopened to add a top view. Mark and Bill Ham were adamant that the purpose of reopening SFF-8009 is not to change the connector.

12.4 IEEE 1394 [Johansson]

Peter Johansson gave an oral report and provided the following electronic report for the minutes:

Movement is afoot to combine, editorially, IEEE Std 1394-1995 and IEEE Std 1394a-2000, into a Committee Draft (CD) to be contributed to ISO/IEC JTC1 SC25 for ultimate approval as an international standard. Minor technical corrections are a possibility during this process, but the principal motivation is the desire for a single volume that reflects the merged contents of two documents that are arguably difficult for readers to navigate.

A related draft standard, IEEE P1394.3, Peer-to-Peer Data Transport (PPDT) Protocol, is about to commence its sponsor ballot. PPDT is based upon and is an extension to Serial Bus Protocol 2 (SBP-2). The IEEE ballot body has been formed and is closed to new participants, but if you wish to comment on the draft please contact the Chair, Greg LeClair, either Greg@ERC.Epson.com or GLeClair@AgentZ.com.

The comment resolution process for IEEE P1394b, Draft Standard for a High Performance Serial Bus--- Amendment 2 (Gigabit extensions), is underway after the initial sponsor ballot. The Ballot Response Committee (BRC) is meeting monthly, chaired by David Wooten (WD@Cypress.com); they hope to recirculate a revised draft for ballot before the end of the year.

After a long period in the wilderness, the IEEE P1394.1, High Performance Serial Bus Bridges, working group has announced its intention to submit an initial draft of the standard for IEEE sponsor ballot in January, 2001. As a consequence of the expected closure of this effort, an SBP-2 study group is to be convened in Huntington Beach on September 15 to explore, among other topics, the possibility of enhancing SBP-2 to make it "bridge-aware". For more information about P1394.1, contact the Chair, Peter Johansson, PJohansson@ACM.org.

Although it is not, strictly speaking, a Serial Bus standard, IEEE P1212, Control and Status Register (CSR) Architecture for Microcomputer Buses, is about to enter its sponsor ballot. IEEE 1394 configuration ROM is based entirely upon the CSR architecture. Contact the Chair, Brian Batchelder, Brian_Batchelder@HP.com, if you require additional information.

12.5 IEEE P1285 Status

No report.

12.6 SCSI Trade Association (STA) [Jones/Aloisi]

Paul Aloisi reported on the activities of STA and provided an electronic report that can be found in 00-367.

12.7 IETF SCSI over IP [Gardner/Robinson]

David Black (IP Storage co-chair for the IETF) gave an oral report on the status of the SCSI over IP project and explained the IETF procedures to the committee.

13. Review of Action Items

- 399) Gene Milligan will create the T10 style guide document with links to the corresponding ISO/IEC MSword templates (dot files).
- 400) John Lohmeyer will notify NCITS that T10 has requested that NCITS not automatically adopt international standards in our subject area as American National Standards.

14. Meeting Schedule

The next plenary meeting of T10 will be November 2, 2000 in Seaside, CA at the Embassy Suites on Monterey Bay (831-393-1115), hosted by Adaptec. The meeting will begin at 9:00 a.m. on Thursday.

14.1 Authorization of Working Group Meetings

John noted that the working group meetings are required to operate under the same voting procedures as does T10 (that is, one vote per organization) and the results of a working group are not binding on the parent committee. Ad hoc groups should strive to achieve consensus prior to bringing issues to T10.

Bill Ham moved that T10 authorize the T10-related meetings and events in the list above that had not previously been approved. Mark Evans seconded the motion. The motion passed on a vote of 12:0:0:28=40.
