RE: Copyright clearances

At the recent SBP-2 study group meeting in Huntington Beach, I was requested to provide the Chair of T10 with a policy statement concerning various presentations made, now or in future, to T10 and its committees. The request was prompted by the fact that many Congruent Software, Inc. presentations bear a copyright notice.

With respect to any and all past and present documents contributed by Congruent Software, Inc. to any T10 working group or body, the following statement shall apply:

Permission is granted to members of NCITS, its technical committees and their associated task groups to reproduce this document for the purposes of NCITS standardization activities without further permission, provided this notice is included. All other rights are reserved. Any commercial or for-profit replication or republication is prohibited.

This statement shall also apply to any future presentations unless, on an individual basis and in advance of their presentation, a different statement is made.
