T10/00-424r0 Meeting Announcement for November 29-30, 2000 SRP Working Group

Microsoft will host a SCSI RDMA Protocol (SRP) working group on:

November 29 (Wed), starting at 1 PM
November 30 (Thu), starting at 9 AM

The meeting is planned to run until 5 pm both days. It may run later subject to host convenience and the amount of work remaining.

Note that a revised draft of SRP will be issued based on the outcome of this working group, without waiting for approval at the next T10 plenary meeting.

The meeting will be held at Microsoft's main campus in Redmond, WA. It has been tentatively scheduled for building 42, conference room 2867. This may change when we get a more accurate attendance estimate. Maps of the campus and of the Seattle area are at the end of this announcement. Upon arrival please come to the building 42 lobby and ask the receptionist to call Rob Haydt, 425.705.7639, for an escort.

PLEASE RSVP TO eag@ophidian.com IF YOU PLAN TO ATTEND.

Conference room space is limited, we may need to move if enough people plan to be present. If there is a change, a revised announcement will be sent to those who have RSVP'd and to the T10 reflector. If the meeting is moved, anyone coming to the old location may not be informed of the new location. Again, please RSVP to ensure you receive an updated announcement.

Lunch will be provided on Thursday, please advise of any dietary restrictions or special requirements.

Driving directions from Seattle / Tacoma airport:

Follow the signs at the airport to 405 North then take 520 East. A new exit just opened for NE 40th Street; make a right at the light onto NE 40th Street and a right at the next light onto 156th Avenue NE. Building 42 is on the right side just before the second traffic light. If you miss the entrance to the underground parking lot on 156th, make a right at the light onto NE 31st Street and take the next entrance on the right. After you find a way up from the parking lot, proceed to the Building 42 lobby. If you park in a "Visitor" space, make sure you tell the receptionist.

A hotel list and maps are below. The hotels on NE 29th Place (on the NW corner of the intersection of 520 and 148th Ave NE) should be the most convenient.
