Hi John,

I would like to note that these documents (T10/00-417 and T10/00-418) were disclosed in the November 2000 MMC WG meeting. Philips requested that I disclose the information for the purpose of promoting inclusion into MMC3. There were no objections in the WG. Some of this has already made its way into the MMC3 draft 7. I expect to have all of it in MMC3 draft 8 which will be sent to you by Feb 20 for posting on the website.

To be formal about it, I am authorized by Philips Electronics, Optical Storage Division to make the following statement:

Permission is granted to members of NCITS, its technical committees and their associated task groups to reproduce documents T10/00-417 and T10/00-418 for the purposes of NCITS standardization activities without further permission. All other rights are reserved.

Kind Regards,  
Bill McFerrin
