From: William Wuertz
Subject: LSI Logic Patent Position re SCSI Domain Validation Technical Report
Our file no.: 97-051-L-STD

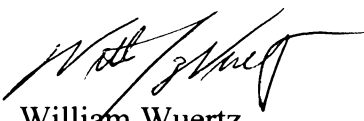

In the event that the proposed SCSI Domain Validation Technical Report (NCITS Project 1378-DT) is registered by ANSI as a technical specification, to be commonly accepted and used industry-wide, and the specification cannot be practiced without the use of one or more issued patents which are now or hereafter owned or controlled by LSI Logic Corp., LSI Logic Corp. agrees upon written request from a party to grant a non-exclusive license under such patent or patents on a nondiscriminatory basis and under reasonable terms and conditions, provided a similar grant under licensee's patents within the scope of the license granted to licensee is made available to LSI Logic Corp. upon its request.
