

SSC-2 Project Status Report (May 3, 2001)

Meeting(s):

- **04-30-01 for 2 1/2 hours with ~10 attendees**
- **Requesting 4 hours during July T10 week.**

SSC-2:

- **Method to switch between explicit and implicit address models has been completed and is documented in rev03.**
- **SPACE and LOCATE commands are complete and documented in rev03.**
- **A detailed state diagram containing both the explicit and implicit state models was discussed and approved for inclusion into rev04 with minor additions.**
- **SSC-2 rev03 is available on the T10 web site. SSC-2 rev04 should be available for review at the next working group meeting.**
- **Real possibility to request a letter ballot at the July plenary (provide no speed bumps are encountered).**
