Subject: Clearing CA on ABORT TASK message

1 Overview

There is no statement in SAM-2 on what happens to a CA if an ABORT TASK message is received from the faulted negotiator.

2 Proposal

Modify the ABORT TASK message section of SAM-2 as follows:

The task manager shall abort the specified task if it exists. Previously established conditions, including MODE SELECT parameters, reservations, and auto contingent allegiance shall not be changed by the ABORT TASK function. <u>A contingent allegiance (NACA equals zero) shall be cleared by the ABORT TASK function.</u>
