## SSC-2 Project Status Report (July 19, 2001)

## Meeting(s):

- 07-16-01 for 5 hours with 11 attendees
- Requesting 6 hours during September T10 week.

## SSC-2:

- Discussed issues regarding transistioning between models. Issues were ironed out and will be reflected in the state diagram and text for SSC-2 rev05.

- Discussed and addressed all comments received from IBM, Seagate, and Compaq. SSC-2 rev05 will contain the resolutions.

- SSC-2 rev04 is available on the T10 web site. SSC-2 rev05 will be available for review at the next working group meeting.

- Plan is to request a letter ballot at the September plenary.
