Subject: T10's Response to Public Review Comment #3 on BSR NCITS 351 (SPC-2)

Dear Roger,

Thank you for your public review comment on BSR NCITS 351, SCSI Primary Commands - 2 (SPC-2).

The Committee elected to not accept your comments ([TT10/01-175r0](#)) for SPC-2 for the reasons stated in item 3 of [T10/01-194r3](#). We believe that it would be more appropriate to consider this change within the SPC-3 project (1416-D).

Please note, this is the T10 response to your comments. Unless you notify us that your public review comment has been satisfied or withdrawn, it will remain in the records as an unresolved comment.

In accordance with ANSI requirements, we are advising you in this letter of the Appeals Processes, see attached.

Once again, thank you for your interest in the SCSI Primary Commands - 2 draft standard.

Sincerely,

John Lohmeyer

cc: Deborah Donovan, NCITS Secretariat

Appeals Processes

- 1) You may appeal an action of NCITS or its Secretariat, the NCITS Appeals Procedures are in Section 5.9 of the NCITS/SD-2.
- 2) Notification of Right to Appeal to the ANSI Board of Standards Review (http://web.ansi.org/public/library/std_proc/anspro.html)

Please note, in accordance with BSR Procedures, those objecting to the approvals or withdrawals are hereby notified of their right of appeal. The appeal must be based on due process or lack of consensus and include a statement as to why the BSR action should be modified. The BSR will not render decisions on the relative merits of technical matters, but it shall consider whether due process was afforded technical concerns.

If you have not completed the appeals process at the standards developer, you are normally not eligible to appeal to the BSR.
