

**To:** T10 Technical Committee  
**From:** Cris Simpson, Intel Corp. *cris.simpson@intel.com*  
**Date:** 28 September 2001  
**Subject:** SRP Teleconference Minutes - 28 September 2001

**Revision History**

Revision 0 - Initial version

**Attendees**

John Carrier	Adaptec
Rob Elliott	Compaq
Ed Gardner	Ophidian
Rob Haydt	Microsoft
Nathan Ober	Microsoft
George Penokie	Tivoli
Cris Simpson	Intel
John Tyndall	Crossroads

Meeting started at 9:15 am PDT.

**1. Ed's Proposal - IB Device Specification**

RobH: Leave SvcID alone, use SvcName, plan for additional “:xxx” extensions

Ed: Remove ‘NCITS’

Endorsed as modified in discussion.- Ed will generate Rev0, include in SRPv10

**2. Choice of IB Reference?**

Version 1.0a

**3. Third-party behavior**

Will let SPC-3 handle

**4. Consideration of removal of concept of processor unit**

Agreed - will remove processor unit concept

**5. Consideration of explicitly including redirection**

Agreed that this seems like a good idea.

**6. Consideration of memory handle definition in IB.**

(Previously agreed)

**7. Review document changes that Ed Gardner identifies as requiring review**

None identified.

Group asks Ed to do his best to get Rev10 by Tuesday/Wednesday.

Meeting adjourned at 10:15 PDT.

## **ACTION ITEMS**

Item 5: Cris will look up text values instead of numerics for redirection and send to Ed.

Ed will have Rev10 out next week
