Results of Meeting

1. Opening Remarks

John Lohmeyer, the T10 Chair, called the meeting to order at 9:10 a.m., Thursday January 17, 2002. He thanked Rob Elliott of Compaq for hosting the meeting.

John announced that this would be Ken Moe's last T10 meeting as he is retiring from Sun Microsystems. He thanked Ken for his many contributions to the standards process over his career.

John said that INCITS Subgroup Membership forms and the T10 Mailing Subscription form were available from the head table. He said that people should use the INCITS forms to insure the INCITS Secretariat has the latest membership information. These forms should be mailed directly to the INCITS Secretariat.

As is customary, the people attending introduced themselves and a copy of the attendance list was circulated. Copies of the draft agenda and general information on T10 were made available to those attending.

2. Approval of Agenda

The draft agenda was approved with the following additions/changes:

- 6.1 Crossroads 5,941,972 Patent Letter (02-033) [Griswold]

The following agenda items were added/revised during the course of the meeting:

- 11.2.1 ISO/IEC SPI-4 [Penokie]

3. Attendance and Membership

The membership requirements were reviewed. INCITS rules permit one vote per organization. An individual from a new organization must attend at least one T10 plenary meeting as an Advisory Member. He/she may apply for voting membership at this meeting, which becomes effective following adjournment of the meeting. Voting privileges begin upon receipt by the INCITS Secretariat of applicable fees for the membership year.

To maintain membership, organizations must pay the INCITS Service Fee (\$800).

John briefly discussed the mailing fees. Complete pricing information is contained in the 2002 membership form (available at ftp://ftp.t10.org/t10/mem_form.txt).

There are also minimum attendance requirements to maintain voting membership on T10. If a member organization fails to attend two of the last three T10 meetings, they are warned that failing to attend the next T10 meeting would result in their membership being terminated.

The Chair said he had sent letters to 9 people from 5 organizations informing them that their membership was in jeopardy due to non-attendance (see 01-344r1) and that their membership would be terminated if they did not attend this meeting. The following organizations were in attendance jeopardy:

EMC

Exabyte Corp.
Genroco, Inc.
Iomega Corp.
Troika Networks, Inc.

All organizations in attendance jeopardy were present except:

Genroco, Inc.
Troika Networks, Inc.

These organizations were changed to non-voting status.

No organizations joined the committee at this meeting. Silicon Image joined the committee following the meeting.

The T10 membership during the meeting was 44 organizations down from 46 following the last meeting. Membership following the meeting was 45 organizations. Enclosure (1) is the list of the people present at the meeting and enclosure (2) is the current T10 membership list.

John Lohmeyer reminded members that failure to vote on two out of the last three letter ballots also would result in membership jeopardy and then reported on the status of companies that have not voted on recent letter ballots. John noted that no organization is in letter ballot jeopardy because all organizations voted on the most recent letter ballot.

4. Approval of Minutes - November 2001 Meeting - Seaside, CA (T10/01-324r0)

John Lohmeyer reported that an error has been discovered in the 01-324r0 minutes. 01-303r1 was referenced as the document containing the letter ballot resolution for SSM. The correct reference is to 01-303r0.

The minutes were approved as corrected. John noted that the above correction notification is sufficient and that he would not issue a revision 1 of the November 2001 minutes.

5. Document Distribution

Members who have any problems with their mailing subscription should deal directly with Monica Vago (mvago@itic.org) (202) 626-5741.

John Lohmeyer requested that all documents for the next mailing be in his hands in electronic format by 10:30 a.m. on Thursday January 21, 2002. Documents received after this time may go into a subsequent mailing.

John reminded the committee of the requirements for document submission. Since T10 meets its document retention requirements by preparing mailings, documents included in the mailing must be suitable for archiving. This means that native-format and/or Portable Document Format (PDF) electronic originals with proper identification must be submitted.

People can obtain T10 document numbers and revised T10 document numbers by filling out a web form at <http://www.t10.org/members/>. The assigned T10 document number will be sent to the requestor by email. The requestor may then reply to this email, including the document to be posted as an attachment. The document will be automatically posted on the T10 web site.

T10 members can complete this entire process using their personal T10 password. John explained that members who do not know their password should surf to the above URL and click on the "forgot password" link to have their password sent to them via e-mail.

John noted that non-members can also use the above document number process, but their requests will require approval by an administrator.

Minutes are available on the T10 World Wide Web page (see below), and are distributed to the T10 Reflector.

To be added to the T10 Reflector, send an email to majordomo@t10.org with the line 'subscribe t10' in the message body.

6. Call for Patents

This is a regular agenda item to identify any potential patent issues with developing standards and technical reports.

A document is available from ANSI, "Procedures for the Development and Coordination of American National Standards", at no charge. This document is also on the WWW at http://www.incits.org/help/ansi_sdo.html. Section 1.2.11 contains the ANSI patent policy. Amy Marasco manages patent issues for ANSI and can be contacted at amarasco@ansi.org or 212-642-4954. Gene Milligan prepared a useful "Handy dandy Technical Committee's Patents Guide", which is available at <ftp://ftp.t10.org/t10/document.99/99-291r0.pdf>.

John presented a foil containing a summary of the ANSI patent policy prepared by Gary Robinson. The summary is also included on the Rules and Procedures (plus Patent Information) page on the T10 web site.

John asked that anyone who knows of applicable patents contact him.

There was response to the call for patents from Crossroads (see item 6.1).

Cris Simpson reported that a statement of the Intel patent policy can be found in T10/01-041r0.

6.1 Crossroads 5,941,972 Patent Letter (02-033) [Griswold]

Bob Griswold reported that a disclosure letter regarding patent 5,941,972 that Crossroads has determined impinges on the Access Controls proposal approved for SPC-3. He noted that a letter describing the Crossroad position is available in 02-033r0.

14.1 Authorization of Working Group Meetings

John noted that the working group meetings are required to operate under the same voting procedures as does T10 (that is, one vote per organization) and the results of a working group are not binding on the parent committee. Ad hoc groups should strive to achieve consensus prior to bringing issues to T10.

Erich Oetting moved that T10 authorize the T10-related meetings and events in the list above that had not previously been approved through the end of April 2002. Paul Aloisi seconded the motion. In the absence of any objections, the motion passed unanimously.

14.2 SBP-3 Tentative Meeting Schedule

Peter Johansson provided the following tentative meeting schedule for the SBP-3 working group:

- January 21 - 22 (Waikoloa, HI)
- March 12 - 13 (Dallas, TX)
