Results of Meeting

1. Opening Remarks

John Lohmeyer, the T10 Chair, called the meeting to order at 9:00 a.m., Thursday May 2, 2002. He thanked Zane Daggett of Hitachi Cable Manchester for hosting the meeting.

John said that INCITS Subgroup Membership forms and the T10 Mailing Subscription form were available from the head table. He said that people should use the INCITS forms to insure the INCITS Secretariat has the latest membership information. These forms should be mailed directly to the INCITS Secretariat.

As is customary, the people attending introduced themselves and a copy of the attendance list was circulated. Copies of the draft agenda and general information on T10 were made available to those attending.

2. Approval of Agenda

The draft agenda was approved with the following additions/changes:

- 8.1.1 INCITS Antitrust Guidelines
- 10.4.1 Accept the SPI-4 PR comment (02-129r0) [Houlder]
- 10.4.2 Link control message correction (02-150r1) [Galloway]

 - 10.7.3 SAS Error primitive (02-167r1) [Galloway]

No agenda items were added/revised during the course of the meeting.

3. Attendance and Membership

The membership requirements were reviewed. INCITS rules permit one vote per organization. An individual from a new organization must attend at least one T10 plenary meeting as an Advisory Member. He/she may apply for voting membership at this meeting, which becomes effective following adjournment of the meeting. Voting privileges begin upon receipt by the INCITS Secretariat of applicable fees for the membership year.

To maintain membership, organizations must pay the INCITS Service Fee (\$800).

John briefly discussed the mailing fees. Complete pricing information is contained in the 2002 membership form (available at ftp://ftp.t10.org/t10/mem_form.txt).

There are also minimum attendance requirements to maintain voting membership on T10. If a member organization fails to attend two of the last three T10 meetings, they are warned that failing to attend the next T10 meeting would result in their membership being terminated.

The Chair said he had sent letters to 15 people from 5 organizations informing them that their membership was in jeopardy due to non-attendance (see 02-126r0) and that their membership would be terminated if they did not attend this meeting. The following organizations were in attendance jeopardy:

Dell Computer Corp.
Hitachi Cable Manchester
Molex Inc.
QLogic Corp.
Tyco Electronics

All organizations in attendance jeopardy were present except:

QLogic Corp.

The members from QLogic were changed to non-voting status.

The following organization joined the committee at this meeting.:

Vixel

The T10 membership during the meeting was 43 organizations unchanged from 43 following the last meeting. Enclosure (1) is the list of the people present at the meeting and enclosure (2) is the current T10 membership list.

The following organizations requested membership in T10 to take effect after the meeting:

Conexant
Network Appliance
Unisys
Western Digital

John Lohmeyer reminded members that failure to vote on two out of the last three letter ballots also would result in membership jeopardy and then reported on the status of companies that have not voted on recent letter ballots. Document 02-156r0 contains current letter ballot jeopardy information. Molex Inc. is the only organization currently in letter ballot jeopardy.

4. Approval of Minutes - March 2002 Meeting - Dallas, TX (T10/02-102r1)

The minutes were approved as written.

5. Document Distribution

Members who have any problems with their mailing subscription should deal directly with Monica Vago (mvago@itic.org) (202) 626-5741.

John Lohmeyer requested that all documents for the next mailing be in his hands in electronic format by 10:30 a.m. on Thursday May 9, 2002. Documents received after this time may go into a subsequent mailing.

John reminded the committee of the requirements for document submission. Since T10 meets its document retention requirements by preparing mailings, documents included in the mailing must be suitable for archiving. This means that native-format and/or Portable Document Format (PDF) electronic originals with proper identification must be submitted.

People can obtain T10 document numbers and revised T10 document numbers by filling out a web form at <http://www.t10.org/members/>. The assigned T10 document number will be sent to the requestor by e-mail. The requestor may then reply to this email, including the document to be posted as an attachment. The document will be automatically posted on the T10 web site.

T10 members can complete this entire process using their personal T10 password. John explained that members who do not know their password should surf to the above URL and click on the "forgot password" link to have their password sent to them via e-mail.

John noted that non-members can also use the above document number process, but their requests will require approval by an administrator.

Minutes are available on the T10 World Wide Web page (see below), and are distributed to the T10 Reflector.

To be added to the T10 Reflector, send an e-mail to majordomo@t10.org with the line 'subscribe t10' in the message body.

The INCITS Secretariat maintains a World Wide Web page at:

The current document register is enclosure (3). The T10 document register is also available at:

6. Call for Patents

This is a regular agenda item to identify any potential patent issues with developing standards and technical reports.

A document is available from ANSI, "Procedures for the Development and Coordination of American National Standards", at no charge. This document is also on the WWW at http://www.incits.org/help/ansi_sdo.html. Section 1.2.11 contains the ANSI patent policy. Amy Marasco manages patent issues for ANSI and can be contacted at amarasco@ansi.org or 212-642-4954. Gene Milligan prepared a useful "Handy dandy Technical Committee's Patents Guide", which is available at <ftp://ftp.t10.org/t10/document.99/99-291r0.pdf>.

John presented a foil containing a summary of the ANSI patent policy prepared by Gary Robinson. The summary is also included on the Rules and Procedures (plus Patent Information) page on the T10 web site.

Cris Simpson reported that a statement of the Intel patent policy can be found in T10/01-041r0.

John asked that anyone who knows of applicable patents contact him.

Michael Banther notified John that a detailed patent disclosure regarding the ADI project would be made at the next meeting.

- 471 John Lohmeyer will request INCITS to investigate creation of an "Obsolete" category for standards where the standards are available for purchase but clearly marked as "No Longer Recommended for Implementation." *Complete.*

8. Project Status Reports

8.1 Project Status Summary and INCITS Liaison [Lohmeyer]

John Lohmeyer said that the current T10 project status summary was included in the T10 Information Packages distributed prior to the meeting and will be included in the mailing as usual.

8.1.1 INCITS Antitrust Guidelines

John Lohmeyer reported that INCITS has developed a new set of antitrust guidelines that they require be included in each subgroups minutes periodically. There is a link to these guidelines on the T10 web site at http://www.t10.org/t10_info.htm.

Antitrust Guidelines

ITI counsel developed the INCITS Antitrust Guidelines for the protection of INCITS and INCITS Subgroup members on antitrust issues. INCITS and INCITS Subgroup members must follow the INCITS Antitrust Guidelines.

Anticipate Risks

INCITS and INCITS subgroup meetings must be conducted in a manner that avoids the appearance of conduct which might violate the antitrust laws. The harsh criminal penalties in the antitrust laws, for individuals as well as organizations, the high costs of defending antitrust suits, the diversion of resources from our important missions, and the risk of liability together mandate an understanding of, and respect for, the antitrust laws by INCITS and its members. Our objective is to create a climate where antitrust risks are both anticipated and avoided.

Consult Counsel

Legal counsel should be consulted prior to any discussion of actions which the staff or INCITS believes could raise antitrust issues, or which seem in any way to be questionable or out of the ordinary. It is counsel's job to advise INCITS on any matters that have legal significance. It is always better to ask.

Notice and Agenda

Each INCITS or INCITS subgroup meeting must be preceded by a notice to the members of the committee with a draft agenda. As required by INCITS procedures, the agenda must be approved at the beginning of the meeting and followed.

Conduct of Meetings INCITS policy requires the full-time attendance of a member of the INCITS staff at every meeting sponsored by INCITS, except where otherwise approved. All participants should be afforded an opportunity to present their views. Acting on behalf of INCITS, INCITS staff or an INCITS officer or subgroup officer have the responsibility to terminate any discussion, seek counsel's advice or, if necessary, terminate any meeting if the discussion might be construed to raise questions under the INCITS antitrust guidelines.

Minutes of Meetings

After each INCITS or INCITS subgroup meeting, concise minutes must be prepared that accurately describe the actions taken, the justification for those actions, and where appropriate, additional pertinent discussion. These minutes must be prepared by a member of the INCITS staff or someone designated by an INCITS officer to prepare the minutes. When prepared by someone other than a member of the INCITS staff, the draft minutes shall be reviewed by the INCITS staff prior to distribution to the committee.

Sensitive Topics

With rare exceptions that should be made only upon the advice of INCITS counsel, there should never be discussion of the following topics at any INCITS or an INCITS subgroup meeting:

- . Any company's prices or pricing policies;
- . Specific R&D, sales and marketing plans;
- . Any company's confidential product, product development or production strategies;
- . Whether certain suppliers or customers will be served;
- . Prices paid to input sources; or
- . Complaints about individual firms or other actions that might tend to hinder a competitor in any market.

Standards

In INCITS sponsored committees related to standards, all relevant opinions should be considered and a sound technical basis for the INCITS position should be articulated. When participating in other standard-setting bodies on behalf of INCITS, INCITS representatives should be guided by both the letter and the spirit of the established procedures, which are designed to ensure that the process is open to all interested parties and standards are based on objective technical factors. INCITS members should voluntarily disclose any proprietary interest they may have in proposed standard in order to reduce the risk of antitrust liability.

Educational Presentations

Sharing non-proprietary information among competitors is generally lawful. Discussion should be limited to objectives, which promote overall consumer welfare. Exchanging proprietary information may not be appropriate, if the purpose or effect of the exchange is to lead to diminished competition in the marketplace.

8.2 SCSI Fibre Channel Protocol - 2 (FCP-2) {Project 1144-D} [Snively]

John Lohmeyer reported that FCP-2 is still awaiting editor work to resolve a font issue, and the INCITS letter ballot is delayed until the editorial issues are resolved.

8.3 SCSI Architecture Model - 2 (SAM-2) {Project 1157-D} [Weber]

John Lohmeyer reported that the SAM-2 forwarding letter ballot passed 33:7:1:2=43 (see 02-123r1 for complete results). Ralph Weber reported that the SAM-2 letter ballot comments resolution document is 02-155, the current revision is r0 and an r1 will be prepared based on the results agreed by the CAP working group (minutes 02-160). It is anticipated that the comments resolution will be completed during special meeting times scheduled at the July meeting week. Voting on the resolutions will occur in September.

8.4 MultiMedia Command Set - 3 (MMC-3) {Project 1363-D} [McFerrin]

John Lohmeyer reported that the INCITS letter ballot on approval closes May 10th.

8.5 SCSI Parallel Interface - 4 (SPI-4) {Project 1365-D} [Penokie]

John Lohmeyer reported that the SPI-4 public review closed April 8th with one comment received from Gerry Houlder. Resolution of the comment is covered under item 10.4.1.

George Penokie reported that ISO SPI-3 is in final ISO editing and has received some requests for changes from the ISO editor. The draft containing those is revision 3 for ISO. George described some of the editorial changes. He noted that ISO acceptance of the revised draft is anticipated.

8.6 SCSI Domain Validation Technical Report (SDV) {Project 1378-DT} [Gibbons]

John Lohmeyer reported that SDV should be published as INCITS/TR-28:2002 later this month.

8.7 SCSI Medium Changer Commands - 2 (SMC-2) {Project 1383-D} [Oetting]

Erich Oetting reported that revision 4 was in the last meeting. Two proposals to be considered at this meeting will affect SMC-2. Erich stated that he might want to conduct a letter ballot on forwarding SMC-2 revision 5 sometime before the next meeting.

8.8 SCSI Signal Modeling (SSM) {Project 1414-DT} [Aloisi/Barnes]

John Lohmeyer reported that SSM should be published as INCITS/TR-29:2002 later this month. Larry Barnes agreed to continue on as SSM editor to finish the publication process.

8.9 SCSI RDMA Protocol (SRP) {Project 1415-D} [Simpson]

Cris Simpson reported that he is finishing up the letter ballot resolution (01-328). He stated that a vote on accepting the resolution is expected in July.

8.10 SCSI Primary Commands - 3 (SPC-3) {Project 1416-D} [Weber]

Ralph Weber reported that SPC-3 revision 6 contains all T10 approved proposals as of the last meeting and that SPC-3 revision 7 will be available in time for the next mailing. Ralph reminded the group of the following SPC-3 dates (see 02-110):

- o Editorial review meetings begin in November, 2002
- o Last new commands and data formats proposals accepted in March, 2003

- o Last change proposals accepted and letter ballot commences in May, 2003

Ralph Weber moved that SPC-3 revision 7 be accepted as the committee working draft for project 1416-D. John Lohmeyer seconded the motion. The motion passed on a vote of 36:0:0:7=43.

8.11 SCSI Block Commands - 2 (SBC-2) {Project 1417-D} [Elliott]

Rob Elliott reported that revision 6 will be available in time for the mailing and will contain the changes approved by this meeting.

8.12 Object-based Storage Devices Commands (OSD) {Project 1355-D} [Weber]

Ralph Weber reported that OSD revision 5 is the current draft. The SNIA OSD working group met on 23 April and resolved to:

- o Use Data-In and Data-Out buffers for only user data or only command/parameter data, but to reserve CDB fields to allow segmentation of the buffers for user data and command/parameter data;
- o Limit the size of the capabilities parameters to what will fit in the OSD variable length CDB; and
- o Work on defining the OSD attributes so that the CDB format can be finalized by the end of May.

Ralph noted that conference calls are planned by the SNIA group to discuss the above agreements.

Ralph stated that OSD revision 6 containing the finalized CDB formats will be available at the end of May, not in time for the next mailing.

8.13 SCSI Stream Commands - 2 (SSC-2) {Project 1434-D} [Peterson]

Dave Peterson reported on the activities of the SSC-2 working group on letter ballot comments resolution (minutes in 02-137). This SSC-2 letter ballot comments resolution document is 02-081.

The issues being worked on in the SSC-2 comments resolution process are:

- o TapeAlert,
- o Undecompressable data,
- o Recording setmarks, and
- o Out of order command detection and processing.

The goal is to complete comments resolution in September.

8.14 SCSI Passive Interconnect Performance (PIP) {Project 1439-D} [Daggett]

Zane Daggett reported that PIP is moving along much faster than in the past and several editor's meetings are planned to cleanup the document. Revision 2 of the document is anticipated near the end of May, but not in time for the mailing. Letter ballot is anticipated following the July meeting.

8.15 SCSI Serial Bus Protocol -3 (SBP-3) {Project 1467-D} [Johansson]

In the absence of Peter Johansson, no report was available.

8.16 SCSI Signal Modeling - 2 (SSM-2) {Project 1514-D} [Aloisi/Manildi]

Paul Aloisi reported on the activities of the SSM-2 working group (minutes in 02-132) and provided an electronic report in 02-176r0. He noted that Bruce Manildi has agreed to be the SSM-2 Technical Editor.

8.17 SCSI RDMA Protocol - 2 (SRP-2) {Project 1524-D} [Simpson]

Cris Simpson reported that work on SRP-2 is on hold until the SRP letter ballot resolution is finished which is anticipated in July. Cris asked the group to prepare for a discussion of SRP-2 requirements at the July CAP meeting.

8.18 SCSI Parallel Interface - 5 (SPI-5) {Project 1525-D} [Penokie]

George Penokie reported that SPI-5 rev 0 was posted last Friday. He reviewed the status of SPI-5 and the activities related to SPI-5 in the Parallel SCSI working group (minutes in 02-161). He stated that revision 1 will be available in time for the mailing and that a letter ballot is planned after the November T10 meeting.

8.19 SCSI Management Server Commands (MSC) {Project 1528-D} [Penokie/Elliott]

George Penokie reported that MSC work will be restarting toward the end of the year.

8.20 MultiMedia Command Set - 4 (MMC-4) {Project 1545-D} [McFerrin]

Bill McFerrin reported that the disclosure has finally been received for DVD+MRW, allowing critical MMC-4 work to proceed. Another major issue for the MMC-4 working group is obsolescence, because each new CD/DVD technology generation discards parts of the old command set but all of the old currently is documented along with the new.

8.21 Automation/Drive Interface - Physical Layer (ADP) {Project 1556-D} [Suhler/Griswold]

Bob Griswold reported on the activities of the ADI working group (minutes in 02-147).

John Lohmeyer moved that T10 accept 02-098r0 for further processing at INCITS as a new project proposal. Mark Evans seconded the motion. The motion passed on a vote of 28:0:1:14=43.

Roger Cummings stated that his abstention is based on no being materially affected by the action.

John Lohmeyer took an action item to forward 02-098r0 to INCITS as a new project proposal for Serial Attached SCSI (SAS).

10.2 Project Proposal for SCSI Architecture Model - 3 (02-118r1) [Lohmeyer]

John Lohmeyer led a discussion of the SAM-3 project proposal, noting that CAP working group requested editorial changes and unanimously recommended approval of the revised project proposal.

10.4.1 Accept the SPI-4 PR comment (02-129r0) [Houlder]

George Penokie reviewed the SPI-4 public review comment (02-129r0). He noted that the working group recommended accepting the changes requested in the comment on a vote of 9:3:7. The working group also declared that the changes requested are substantive.

Gerry Houlder moved that the editor be instructed to modify SPI-4 as described in the public review comment (02-129r0). Paul Aloisi seconded the motion.

Mark Evans asked that everyone understand that this issue results from designing to "e.g. examples" and admonished everyone not to design to examples.

The motion passed on a vote of 26:2:5:10=43:

Mark Evans and Ron Roberts stated that their reason for voting no was a desire not to change the document and undergo a second public review.

All those who abstained stated that their reason was that they were not materially affected by the decision.

10.4.2 Link control message correction (02-150r1) [Galloway]

George Penokie described the contents of the 02-150r1 and 02-151r1 proposals.

He noted that, although the proposals were recommended by the working group for SPI-5, the fact that SPI-4 will undergo substantive change as a result of the public review comment resolution should be a motivation to T10 to include these corrective proposals in SPI-4 too.

Bill Galloway moved that 02-150r1 and 02-151r1 be approved for inclusion in SPI-4 and SPI-5. Mark Evans seconded the motion. The motion passed on a vote of 31:0:2:10=43.

George Penokie took an action item to prepare SPI-4 revision 10 including the resolution to the public review comment (02-129r0), the approved proposals 02-151r1, 02-151r1, and other editorial corrections agreed by the working group.

George Penokie moved that T10 accept the substantive public review comment and that SPI-4 revision 10 including substantive changes be forward to INCITS for processing toward second public review. Erich Oetting seconded the motion. The motion passed on a roll call vote of 24:2:5:12=43, details of the vote were as follows:

George Penokie explained that 02-145r0 and 02-144r0 are clarifications of long standing SPC features. Ralph Weber explained that 02-134r2 is still a work in progress but that the CAP working group recommended that specific parts of the proposal be incorporated immediately in SPC-3 to support development of the SRP and iSCSI protocol standards. The working group supported this recommendation on a vote of 14:1:6.

Rob Elliott moved that 02-145r0 and 02-144r0 be approved for inclusion in SPC-3 and that those parts of 02-134r2 dealing with SPC-3 changes other than changes relating to mode pages also be approved for inclusion in SPC-3. 14.1 Authorization of Working Group Meetings

John noted that the working group meetings are required to operate under the same voting procedures as does T10 (that is, one vote per organization) and the results of a working group are not binding on the parent committee. Ad hoc groups should strive to achieve consensus prior to bringing issues to T10.

Charles Monia moved that T10 authorize the T10-related meetings and events in the list above that had not previously been approved through the end of August 2002. Ron Stockford seconded the motion. In the absence of any objections, the motion passed unanimously.

14.2 SBP-3 Tentative Meeting Schedule

Peter Johansson provided the following tentative meeting schedule for the SBP-3 working group:

May 29 - 30 (Portland, OR)

July 16 - 17 (Colorado Springs, CO) [two-day meeting that week]

15. Adjournment

The meeting was adjourned at 11:20 a.m. on Thursday May 2, 2002.
