

ENDL TEXAS

Date: 26 June 2002
 To: T10 Technical Committee
 From: Ralph O. Weber
 Subject: SAM to SAM-2 Changed Terms Annex

This proposal describes the actions to be taken to resolve comment HP 12) in the SAM-2 letter ballot (see also T10/02-255).

The definition text for the following entries will be changed from:

- 3.1.24 device identifier: Synonymous with SCSI port identifier (see 3.1.95).
- 3.1.49 initiator: Synonymous with SCSI initiator port (see 3.1.93).
- 3.1.51 initiator identifier: Synonymous with initiator port identifier (see 4.7.1).
- 3.1.91 SCSI identifier: Synonymous with SCSI port identifier (see 3.1.95).
- 3.1.119 target: Synonymous with SCSI target port (see 3.1.103).
- 3.1.121 target identifier: Synonymous with target port identifier (see 4.7.2).

to:

- 3.1.xx ...: A term used by previous versions of this standard (see Annex B).

Annex B will be added, containing the following text:

Annex B (informative)

Terminology mapping

The introduction of a model for SCSI devices with multiple ports resulted in changes in terminology between SAM and SAM-2 (see table B.1).

Table B.1 — SAM-2 to SAM terminology mapping

SAM-2 equivalent term	SAM term
initiator port identifier	initiator identifier
SCSI initiator port	initiator
SCSI port	port
SCSI port identifier	device identifier
SCSI port identifier	SCSI identifier
SCSI target port	target
target port identifier	target identifier
