Follow-on to Obsoleting Reserve/Release

(T10/02-277r0)
Dave Peterson, Cisco Systems, Inc.

Proposal

As a follow-on to obsoleting the Reserve/Release Management method in SPC-3:

1. obsolete RESERVE/RELEASE in all pertinent SCSI standards:
    SSC-2
    SBC-2
    SES-2
    SMC-2
    OSD

2. make PERSISTENT RESERVE OUT/IN mandatory in the following standards:
    SSC-2
    SBC-2
    SMC-2
    OSD (note: both commands are specified as mandatory in rev 5)

3. make PERSISTENT RESERVE OUT/IN optional in the following standards:
    SES-2
