

# Follow-on to Obsoleting Reserve/Release

(T10/02-277r1)

Dave Peterson, Cisco Systems, Inc.

## Proposal

As a follow-on to obsoleting the Reserve/Release Management method in SPC-3:

1. obsolete RESERVE/RELEASE in all pertinent SCSI standards:
  - SSC-2
  - SBC-2
  - SES-2
  
2. make PERSISTENT RESERVE OUT/IN mandatory in the following standards:
  - SSC-2
  - SBC-2
  - OSD (note: both commands are specified as mandatory in rev 5)
  
3. make PERSISTENT RESERVE OUT/IN optional in the following standards:
  - SES-2
  - SMC-2
