

SNIA Liaison to T10 09/03

Roger Cummings
VERITAS Software

SNIA Overview

- No SNIA symposium since last T10 meetings
- Three SMI Developers courses held in June, July & August
 - Another scheduled for early October in Colorado Springs
 - Last one sold out within one day – see snia.org now if you're interested
- CIFS conference & plugfest held in San Jose, August 11-13

Storage Management Initiative

- Rev 1.0.1, incorporating latest fixes and alignment with DMTF, to be available shortly
 - Positive press recently on interoperability
- Work on scoping functionality for Rev 1.1 well underway
- Test program making slow but steady progress
- Overall program timescale adjusted to sync with DMTF schedule for CIM 2.8
- 1st plugfest leading to Fall SNW held 2 weeks ago @ SNIA Technology Center

Next Events

- 5th Developers course scheduled for early October also @ SNIA Tech Center
- Next symposium September 15-19 in Colorado Springs
 - Online registration available @ snia.org
 - Agenda available on web site - all committees, most TWGs meeting
- Significant SMI demos planned for SNW Fall, October 28-30 in Orlando
