Results of Meeting

1. Opening Remarks

John Lohmeyer, the T10 Chair, called the meeting to order at 9:00 a.m., Thursday July 15, 2004. He thanked LSI Logic for hosting the meeting.

John said that INCITS subgroup membership forms and the T10 document subscription forms are available on the meeting web site. He said that people should use these forms to ensure the INCITS Secretariat has the latest membership information. These forms should be mailed directly to the INCITS Secretariat.

As is customary, the people attending introduced themselves. Attendance was taken electronically via the meeting web site.

2. Approval of Agenda

No additions/changes were made to the draft agenda.

John Lohmeyer moved and Ralph Weber seconded that the agenda be approved. In the absence of any objections, the motion passed unanimously.

The following items were added/revised during the course of the meeting:

- 11.2.3 FCD SMC 1.25.13.11.13: 14776-351 recommendation
- 11.2.4 NWIP, SCSI Block Commands-2, 14776-322, SBC-2

3. Attendance and Membership

The membership requirements were reviewed. INCITS rules permit one vote per organization. An individual from a new organization must attend two out of three consecutive plenary meetings. He/she may apply for voting member-

ship the second meeting via a letter to the Chair of T10. The individual may begin voting at the beginning of his/her second meeting.

To maintain membership, organizations must pay the INCITS Service Fee (\$800).

John briefly discussed the mailing fees. Complete pricing information is contained in the 2004 membership form (available at ftp://ftp.t10.org/t10/mem_form.txt).

There are also minimum attendance requirements to maintain voting membership on T10. If a member organization fails to attend two of the last three T10 meetings, they are warned that failing to attend the next T10 meeting would result in their membership being terminated.

The Chair said he had sent letters to 5 people from 3 organizations informing them that their membership was in jeopardy due to non-attendance (see 04-161r0) and that their membership would be terminated if they did not attend this meeting. The following organizations were in attendance jeopardy:

Cisco Systems, Inc.
Hitachi Cable Manchester
Storage Technology Corp.

All the organizations in attendance jeopardy were present.

Had any of the organizations in jeopardy failed to attend the meeting, the members from that organization would have had their membership changed to non-voting status.

The following organizations became voting members of T10 at this meeting:

PMC-Sierra
Foxconn

The T10 membership during the meeting was 41 organizations up from the 39 member organizations prior to the meeting. Enclosure (1) is the list of the people present at the meeting and enclosure (2) is the current T10 membership list.

John Lohmeyer reminded members that failure to vote on two out of the last three Letter Ballots also would result in membership jeopardy and then noted that no organizations are currently in Letter Ballot jeopardy.

4. Approval of Minutes - May 2004 Meeting - Seaside, CA (T10/04-135r1)

John Lohmeyer moved and Ralph Weber seconded that the minutes be approved. In the absence of any objections, the motion passed unanimously.

5. Document Distribution

Members who have any problems with their mailing subscription should deal directly with Parthenia Purnell (ppurnell@itic.org) (202) 626-5741. A subscription form is included on the meeting disk.

John Lohmeyer requested that all documents for the next mailing be uploaded to the T10 web site by 10:30 a.m. on Thursday July 22, 2004. Documents received after this time may go into a subsequent mailing.

John reminded the committee of the requirements for document submission. Since T10 meets its document retention requirements by preparing mailings, documents included in the mailing must be suitable for archiving. This means that native-format and/or Portable Document Format (PDF) electronic originals with proper identification must be submitted.

People can obtain T10 document numbers and revised T10 document numbers by filling out a web form at <http://www.t10.org/members/>. The assigned T10 document number will be sent to the requestor by e-mail. The requestor may then reply to this email, including the document to be posted as an attachment. The document will be automatically posted on the T10 web site.

T10 members can complete this entire process using their personal T10 password. John explained that members who do not know their password should surf to the above URL and click on the "forgot password" link to have their password sent to them via e-mail.

John noted that non-members can also use the above document number process, but their requests will require approval by an administrator.

Minutes are available on the T10 World Wide Web page (see below), and are distributed to the T10 Reflector.

To be added to the T10 Reflector, send an e-mail to majordomo@t10.org with the line 'subscribe t10' in the message body.

6. Call for Patents

John Lohmeyer explained that this is a regular agenda item to identify any potential patent issues with developing standards and technical reports.

A document is available from ANSI, "Procedures for the Development and Coordination of American National Standards", at no charge. This document is also on the WWW at http://www.incits.org/help/ansi_sdo.html. Section 1.2.11 contains the ANSI patent policy. Amy Marasco manages patent issues for ANSI and can be contacted at amarasco@ansi.org or 212-642-4954. Gene Milligan prepared a useful "Handy dandy Technical Committee's Patents Guide", which is available at <ftp://ftp.t10.org/t10/document.99/99-291r0.pdf>.

John Lohmeyer presented a summary of the ANSI patent policy prepared by Gary Robinson. The summary is also included on the Rules and Procedures (plus Patent Information) page on the T10 web site.

Bob Sheffield reminded the committee that a statement of the Intel patent policy can be found in T10/01-041r0.

John asked that anyone who knows of other applicable patents to contact him.

George Penokie noted that he had posted "IBM Patent Licensing Position for the INCITS T10 Committee on OSD" (04-227).

There were no other responses to the call for patents other than those mentioned above.

7. Review of Old Action Items

- 545 David Black will ensure that RFCs are written defining URLs for SNMP, CIM over HTTP/HTTPS, and SSH. *Carryover*
- 571 Gary Robinson will notify the JTC1/SC25 TAG that T10 has reviewed project 1.25.13.11.13: FCD 14776-351: SCSI SMC, and recommends that the JTC1/SC25 TAG vote to approve said FCD. *Carryover*
- 572 After the T10 Letter Ballot on SBC-2 has closed, Gary Robinson will inform the JTC1/SC25 TAG that T10 has reviewed the new work item proposal, and recommends the NWIP for SBC-2 (T10/04-125r0) as a US contribution to JTC1/SC25 and to approve the NP to be issued by SC25, answering the 6 questions 'Yes' and naming Gary S. Robinson as project editor. *Carryover*

8. Project Status Reports

8.1 Project Status Summary and INCITS Liaison [Lohmeyer]

John Lohmeyer said that the current T10 project status summary was included on the meeting web site and will be included in the mailing as usual.

Terry Nelson reported that the INCITS procedures group is reviewing the T10 procedures document. John noted that the procedures were reviewed several years ago when they were originally developed.

8.1.1 INCITS Antitrust Guidelines

All T10 members should be aware of the INCITS antitrust guidelines available at <http://www.incits.org/natrust.htm>.

John reminded committee members that all persons present at a T10 meeting is responsible for identifying potential violations of the antitrust guidelines and reporting them to the chair. Discussions of the following topics are considered sensitive:

- * Any company's prices or pricing policies;
- * Specific R&D, sales and marketing plans;
- * Any company's confidential product, product development or production strategies;
- * Whether certain suppliers or customers will be served;
- * Prices paid to input sources; or
- * Complaints about individual firms or other actions that might tend to hinder a competitor in any market.

8.2 Object-based Storage Devices Commands (OSD) {Project 1355-D} [Weber]

Ralph Weber reported that comments resolution on the OSD letter ballot is complete and that the CAP working group has recommended accepting the resolution 7:1:2. The completed comments resolution documents are 04-108r5 (04-108r4 as revised), 04-095r4, 04-189r2, and 04-193r5 (r4 as revised).

Ralph Weber moved that documents 04-108r5, 04-095r4, 04-189r2, and 04-193r5 be accepted as resolving the OSD letter ballot comments, that the OSD editor be instructed to prepare OSD r10 reflecting the contents of the comments resolutions documents, and that the OSD r10 be forwarded to INCITS for further processing towards first public review. George Penokie seconded the motion.

In response to a question from Terry Nelson, Bob Snively explained his vote against forwarding in CAP was based on concerns that no way had been provided for incorporating corrections for problems discovered during early implementations. Bob stated that the plans to bring forward an OSD-2 new project proposal in September satisfies his concerns and that he will be voting in favor of the motion.

The motion passed on a two-thirds vote of 27:0:0:14=41.

David Black was unable to attend, but sent John Lohmeyer an e-mail message requesting that, based on the successful resolution of the EMC letter ballot comments, his No vote on the letter ballot be changed to a Yes.

Based on the successful resolution of the ENDL Texas letter ballot comments, Ralph Weber asked that his No vote on the letter ballot be changed to a Yes.

Based on the successful resolution of the IBM letter ballot comments, George Penokie asked that his No vote on the letter ballot be changed to a Yes.

Based on the successful resolution of the LSI Logic letter ballot comments, John Lohmeyer asked that his No vote on the letter ballot be changed to a Yes.

Based on the successful resolution of the Seagate Technology letter ballot comments, Gerry Houlder asked that his No vote on the letter ballot be changed to a Yes.

Based on the successful resolution of the Veritas Software letter ballot comments, Roger Cummings asked that his No vote on the letter ballot be changed to a Yes.

Ralph Weber took an action item to prepare OSD r10. John Lohmeyer took an action item to forward OSD r10 to INCITS for further processing towards first public review.

8.3 SCSI Medium Changer Commands - 2 (SMC-2) {Project 1383-D} [Oetting]

Erich Oetting reported SMC-2 had run into some pre-publication snags at ANSI. The ANSI editor was unable to work with the Word Perfect for Macintosh file. Erich Oetting converted the file to Framemaker, but there were still issues with how the tables and figures were converted. Once these issues are resolved, SMC-2 will go to INCITS for approval.

8.4 SCSI Primary Commands - 3 (SPC-3) {Project 1416-D} [Weber]

Ralph Weber reported that SPC-3 revision 20 will be prepared based on proposals approved by this meeting and will be posted before the next meeting but probably not in time for the mailing. The committee agreed to move the forwarding letter ballot date to September 2004.

8.5 SCSI Block Commands - 2 (SBC-2) {Project 1417-D} [Elliott]

Rob Elliott reported SBC-2 revision 15 will be based on the proposals accepted at this meeting and will be posted by Monday 26 July.

Rob Elliott requested that a letter ballot be conducted on forwarding SBC-2 revision 15 to first public review.

8.6 SCSI Serial Bus Protocol -3 (SBP-3) {Project 1467-D} [Johansson]

John Lohmeyer reported that SBP-3 had been published as INCITS.375:2004. He congratulated Peter Johansson for his hard work and dedication.

8.7 SCSI RDMA Protocol - 2 (SRP-2) {Project 1524-D} [Simpson]

In the absence of Cris Simpson, no report was available. John stated that he may request that the project be withdrawn if no progress is evidenced by the November meeting.

8.8 SCSI Management Server Commands (MSC) {Project 1528-D} [Elliott]

8.9 MultiMedia Command Set - 4 (MMC-4) {Project 1545-D} [McFerrin]

Bill McFerrin reported that MMC-4 group has encountered setbacks in resolving MMC-4 letter ballot comments. He stated that MMC-4 should be ready for forwarding in September.

8.10 Automation/Drive Interface - Transport Protocol (ADT) {Project 1557-D} [Entzel]

Paul Entzel reported on the activities of the ADI working group (minutes in 04-199).

8.11 Automation/Drive Interface - Commands (ADC) {Project 1558-D} [Entzel/Wideman]

Paul Entzel reported that the ADC letter ballot comment resolution should be completed in time for the September meeting.

Paul note that project proposals for ADT-2 and ADC-2 will be prepared for consideration in September or November.

8.12 SCSI Enclosure Services - 2 (SES-2) {Project 1559-D} [Elliott]

Rob Elliott reported that SES-2 revision 10 will be prepared including the proposal approved by this meeting in time for the mailing. He noted that a letter ballot should be held towards the end of the year.

Dave Peterson reported on the activities of the SSC-3 working group (minutes in 04-232).

8.17 MultiMedia Command Set - 5 (MMC-5) {Project 1675-D} [McFerrin]

Bill McFerrin reported that MMC-5 has received several presentations on new device types to be included. He expressed confidence in the prospects for timely completion of MMC-5 based on the bounds already placed on MMC-5 inputs. He noted that one MMC-4 media type is already obsolete in MMC-4, owing to the rate at which the technology changes.

8.18 SCSI Architecture Model - 4 (SAM-4) {Project 1683-D} [Penokie]

George Penokie reported that work on the UML diagrams for SAM-4 continues in the CAP working group (minutes in 04-215) and that there will be no revisions of SAM-4 until the SAM-3 Letter Ballot resolution is finished.

14.1 Authorization of Working Group Meetings

John noted that the working group meetings are required to operate under the same voting procedures as does T10 (that is, one vote per organization) and the results of a working group are not binding on the parent committee. Ad hoc groups should strive to achieve consensus prior to bringing issues to T10.

Erich Oetting moved that T10 authorize the T10-related meetings and events in the list above that had not previously been approved through the end of August 2004. Bob Nixon seconded the motion. In the absence of any objections, the motion passed unanimously.

15. Adjournment

John Lohmeyer moved and Ralph Weber seconded that the meeting be adjourned. In the absence of any objections, the motion passed unanimously. The meeting was adjourned at 10:45 a.m. on Thursday July 15, 2004.
