From: Ralph O. Weber
Subject: ISO/IEC SCSI Part Number Score Card

The ISO/IEC numbers for SCSI (T10) standards has the basic form: ISO/IEC 14776-nnn, where T10 picks nnn. ISO/IEC calls the nnn a "part number".

This document summarizes the nnn values picked by T10. This document is not an official ISO/IEC definition of the SCSI part numbers. The only official source for ISO/IEC part numbers is ISO/IEC.

This document will be revised as new T10 projects are approved. However, the part numbers in this document will not be made known to ISO/IEC until the NWIP (New Work Item Proposal) is forwarded by T10. The part numbers assigned projects that are cancelled before the NWIP is forwarded, may be reused.

Architecture	
Part Number	SCSI Std.
411	SAM
412	SAM-2
413	SAM-3
414	SAM-4

Shared Commands	
Part Number	SCSI Std.
~~311~~ 451	SPC
452	SPC-2
453	SPC-3
454	SPC-4

Note: SPC was originally assigned part number 311, however, the processing of SPC at ISO was withdrawn due to the WordPerfect electronic source format. SPC-2 will be the first SPC processed through ISO.

Interconnects	
Part Number	SCSI Std.
111	SPI
112	SPI-2
113	SPI-3
114	SPI-4
115	SPI-5
121	PIP
132	SSM-2
150	SAS
151	SAS-1.1
152	SAS-2
191	ADT
192	ADT-2

Transport Protocols	
Part Number	SCSI Std.
221	FCP
222	FCP-2
223	FCP-3
232	SBP-2
233	SBP-3
241	SRP
242	SRP-2

Device-Type Commands	
Part Number	SCSI Std.
321	SBC
322	SBC-2
323	SBC-3
326	RBC
331	SSC
332	SSC-2
333	SSC-3
342	SCC-2
351	SMC
352	SMC-2
353	SMC-3
356	ADC
357	ADC-2
362	MMC-2
363	MMC-3
364	MMC-4
365	MMC-5
371	SES
372	SES-2
381	OCRW
391	OSD
392	OSD-2
511	BCC

Translation Protocols	
Part Number	SCSI Std.
921	SAT

ATA/ATAPI	
Part Number	ATA/ATAPI Standard
971	ATA/ATAPI-7

ATA/ATAPI Architecture	
Part Number	ATA/ATAPI Standard
861	ATA8-AAM

ATA/ATAPI Command Set	
Part Number	ATA/ATAPI Standard
871	ATA8-ACS

ATA/ATAPI Parallel Transport	
Part Number	ATA/ATAPI Standard
881	ATA8-APT
