

# SSC-3: Log page support

(T10/05-159r0)

Dave Peterson, CNT

Table 51 (Log page codes) does not specify which log pages are required to be supported. As such, I propose a column be added to the table along with the support requirement.

## 8.2.1 Log parameters overview

This subclause defines the descriptors and pages for log parameters used with sequential-access devices.

The log page codes for sequential-access devices are defined in table Table 51 —.
