

T10/05-232 revision 2

Date: November 01, 2006

To: T10 Committee (SCSI)

From: George Penokie (IBM/Tivoli)

Subject: SPC-4: Log Command Corrections

1 Overview

With the incorporation of the proposals that fix the descriptions of all the bits in the log pages Annex C of SPC-4 is no longer needed. As a result the following should be deleted from SPC-4.

- a) Annex C;
- b) From the Introduction section: Annex C elaborates on the procedures for logging operations. (informative);
- c) From section 6.5 (LOG SELECT command) the statement: Additional information about the LOG SENSE command is in Annex C;
- d) From section 6.6 (LOG SENSE command) the statement: Additional information about the LOG SENSE command is in Annex C; and
- e) From 7.2.1 (Log page structure and page codes for all device types) the statement: Additional information about the LOG SELECT command is in Annex C.
