

STA -T10 Liaison Report

July 14, 2005

7/14/2005

STA Update

- Next plugfest for week of September 26 at UNH
 - Updated NDA will be on STA website soon
 - Needed to attend planning sessions starting in Aug.
 - Focused on large system build and error handling/exception testing
 - Make your reservations early, it's leaf peeper season
- SAS 2.0 Exactly what is it?
 - STA working of position statement to define what is the "required" vs optional feature sets
 - SAS 2.0 Forum planned for Monday (or Tuesday) night at next T10 Meeting
 - First topic – 6 Gb options/positions
 - Cable distances, usage models, error rates, etc.
 - If your company would like to make a presentation/position statement contact Harry Mason or Marty Czekalski
 - Other possible topics (future) – Multiplexing, zoning
