IBM Thoughts on the direction of the T10 Encryption Key Management Study Group Friday, November 18, 2005

SCSI Layer	Passing Keys, Setting Modes, Configuration [Should take a couple of meeting cycles] (Should be the focus of this T10 Study Group)	SCSI Layer	
	Authentication of Devices [Expected to take much more effort – perhaps a year] (Should be a different effort to address this)		
Transport Layer	Encryption of Data In Flight e.g. FC-SP, IPSEC, etc.	Transport Layer	
	Physical Connection
