DATE: 10 July 2006
SUBJECT: T10/06-328r0, ADI-2 Working Group Report to Plenary, July 2006

The Automation/Drive Interface – 2 working group met on 8 May 2006 from 9:02 AM until 3:22 PM. There were eight participants representing six companies. The minutes will be posted as T10/06-306r0.

The group discussed nine proposals against ADC-2 and ADT-2. Eight were accepted and one remanded for revision. The accepted proposals were:

- ADC-2 Model for Devices with No ADT Ports (06-061r2) [Suhler] Approved as modified
- ADC-2 Device Statistics log page parameter updates (06-183r1) [Marks] Approved.
- ADC-2 Clarification of MOUNTED (06-218r1) [Banther] Approved as modified.
- ADC-2 Add supported operation codes to caching (06-222r1) [Banther] Approved.
- ADT-2 Correct Major and Minor Revision Numbers (06-280r0) [Suhler] Approved.
- ADC-2 Add Tape Alert flags to match SSC-3 (06-307r0) [Entzel] Approved.
- ADT-2 Limit Login due to Symbol Framing Errors (06-283r0) [Banther] Approved as modified.
- ADT-2 More logout reasons (06-294r0) [Entzel] Approved as modified.

One technical proposal was sent back for revision, “ADC-2: Fix bridging reservations and other stuff,” (06-261r0) [Entzel].

The group reviewed the list of features for consideration for the two ADI standards (06-060r1). At this time, all open issues have been assigned for work.

The current plan is to send ADC-2 for letter ballot following the September plenary week.

Meeting requirements for September will be the same as for this week, with the SMC-3 meeting beginning as soon as the ADI-2 meeting concludes.
