

**TO:** T10 Membership  
**FROM:** Paul Suhler, Quantum Corporation  
**DATE:** 8 May 2007  
**SUBJECT:** T10/07-234r0, ADI-2 Working Group Report to Plenary, May 2007

The Automation/Drive Interface – 2 working group met on 7 May 2007 from 9:00 AM until 1:10 PM. There were nine participants representing seven companies. The minutes will be posted as 07-206r0.

The group discussed four proposals to resolve ADC-2 letter ballot comments and accepted two of them. The other two will be revised and discussed in future meetings. The accepted proposals were:

- ADI ADC-2 Letter Ballot Comment QTM-183 (07-197r0) [Wideman]
- ADC-2 Letter Ballot resolution for comments HP-215 and QTM-92 (07-232r0) [Marks]

The group reviewed a number of other ADC-2 letter ballot comments (06-475r3) and resolved several of them. We intend to complete letter ballot resolution in or before the July meeting, therefore anyone with an action item to submit a proposal is strongly encouraged to submit it as soon as possible.

At this time, we will probably submit a project proposal for ADC-3 for consideration at the July 2007 plenary meeting. We are not yet planning to submit a proposal for ADT-3.

In order to expedite ADC-2 letter ballot comment resolution, the group wishes approval to conduct two teleconferences prior to the next plenary week. The proposed dates are 30 May and 20 June 2007, both from 8:00 to 10:00 AM PDT. Teleconference information will be announced via the T10 reflector.

Meeting requirements for July will be the same as for this week, with the SMC-3 meeting beginning as soon as the ADI-2 meeting concludes.
