Doc:	in071358
Date:	September 11, 2007
Reply to:	Barbara Bennett or 202-626-5743
To:	Mr. John Lohmeyer, INCITS T10 Chairman

Dear John:

Subject: Notification to INCITS T10 for 2008 National Standards Maintenance Recommendations

In accordance with INCITS procedures, action must be taken during the four-year anniversary of a standard's approval date to either **reaffirm**, **revise**, **withdraw** or **stabilize** the standard. Five-year maintenance actions should be completed before the end of the year (December 2008).

If the TC recommendation is revision, a project proposal describing the proposed revision should be submitted with the recommendation to reaffirm, pending revision. If a standard is currently under revision, the customary four-year action would be reaffirmation of the current standard, pending completion of the revision. See the INCITS/RD-2, Section 5.2.

If the TC recommendation is stabilization, at least five years must have passed since the previous reaffirmation, without any modifications. If it is determined that the standard should be designated as a stabilized standard, the TC shall include the rationale for the recommendation with the vote. See the INCITS/RD-2, Section 5.2.7.

Requested Action

According to the records of the INCITS Secretariat, your TC should review the attached list of standards and forward a recommendation to reaffirm, revise, withdraw or stabilize each standard listed below. This review should include any associated amendments and corrigenda.

Each recommendation may be approved (2/3 rule) by TC letter ballot. Additionally, for approvals (2/3 rule) conducted at a TC meeting, the withdrawal and stabilization recommendation is by roll-call vote and a reaffirmation recommendation is by meeting vote. Upon approval by the Technical Committee, the recommendation(s) should be forwarded to the INCITS Secretariat for action by **January 14, 2008**.

If a recommendation is not forthcoming from the technical committee by **January 14, 2008**, the INCITS Executive Board shall make a recommendation on this issue without the benefit of the Technical Committee's input at their next meeting.

Please contact me, if you have any questions.

Sincerely,

Barbara Bennett
 Associate Manager, Standards Operations
