TO: T10 Membership
FROM: Paul Suhler, Quantum Corporation
DATE: 17 September 2007
SUBJECT: T10/07-404r0, ADI-2 Working Group Report to Plenary, September 2007

The Automation/Drive Interface – 2 working group met on 17 September 2007 from 9:05 AM until 3:15 PM. There were eight participants representing six companies. The minutes will be posted as 07-405r0.

Michael Banther notified the group that his T10 participation will be curtailed after the January meeting; we issued a call for a new secretary to assume his duties.

The group reviewed one proposal for ADT-2 (07-321r2, ADT-2 Negotiation state machine, Banther). It was approved as modified for inclusion in ADT-2.

The group reviewed one proposal for ADC-3 (07-164r2, Automation encryption control, Ballard). The author will revise it and it will be reconsidered at the next teleconference.

We are issuing a call for final technical input to ADT-2 for the November 2007 T10 Plenary week.

We request permission to hold three teleconferences before the next plenary week: 26 September, 10 October, and 31 October, 8:00 AM – 10:00 AM PDT each day. Quantum will host these calls.

Meeting requirements for November will be the same as for this week, with the SMC-3 meeting beginning as soon as the ADI-2 meeting concludes.
