Mr. John Lohmeyer
Chair, ANSI Technical Committee T10
LSI Corporation
4420 Arrowswest Drive
Colorado Springs, CO 80907

Dear Mr. Lohmeyer:

Re: Licensing Statement for T10 Standards

As you are likely aware, LSI Corporation is participating in the development of T10 Serial Attached SCSI (SAS) Standards. If any of the proposed T10 standards are adopted by ANSI as standards, and if any LSI owned patents or patent applications contain claims that are required for practicing these standards, LSI is prepared to offer a license to such patents and patent applications to the extent required to implement the T10 standard. Such a patent license would be non-exclusive and offered under reasonable, non-discriminatory (RAND) terms and conditions, subject to receipt by LSI of a reciprocal license from the licensee.

Any party wanting to request a license should submit that request in writing to me at the address provided above.

Sincerely,

A handwritten signature in black ink, appearing to read "W. Waskiewicz".

Warren K. Waskiewicz
Director, IP Licensing
