Subject:	Forwarding SAS-2 to First Public Review
Statement:	The Serial Attached SCSI - 2 (SAS-2) draft standard is the second generation of SAS, which adds an option for a 6 Gb/sec link speed. It is based upon SAS-1.1. It continues to document both a physical Layer that is compatible with Serial ATA and protocols for transporting SCSI commands to SAS devices and for transporting ATA commands to SATA devices.
Question:	Do you approve of forwarding SAS-2 Rev 14 to INCITS for further processing toward first public review?

Notes:

- (1) American National Standards are developed by the voluntary participation of all parties and with the intention and expectation that the standards will be suitable for wide application. Since their use is likewise voluntary, an affirmative vote does not commit an organization or group represented on the committee to the use of the American National Standard under consideration.
- (2) If you vote No or Abstain, your ballot must be accompanied by reason(s) for your position. Provide an electronic copy of your comments with each comment numbered in the area provide above or by email to lohmeyer@t10.org.
