

TO: T10 Membership
FROM: Paul Suhler, Quantum Corporation
DATE: 5 May 2008
SUBJECT: T10/08-225r0, ADI-2 Working Group Report to Plenary, May 2008

General

The Automation/Drive Interface – 2 working group met in San Jose, California, on 5 May 2008 from 1:55 PM until 6:36 PM. There were eight participants representing six companies. The minutes have been posted as 08-223r0.

The working group also conducted one interim teleconference on 16 April 2008 (minutes in 08-196r1).

We again issued a call for a permanent secretary; there have been no volunteers at this time. Curtis Ballard volunteered to be secretary for this meeting

ADC-3 Status

Two ADC-3 proposals were reviewed and approved as modified:

- ADC-3 Host Reported Error Details (08-195r2) [Ballard]
- ADC-3 Clarifications for automation encryption control (08-200r01) [Ballard]

ADT-2 Status

Three proposals for ADT-2 were discussed:

- ADT-2: SCSI Command IU to Initiator only port (07-438r1) [Suhler] (teleconference)
- iADT Service Discovery using UPnP (08-198r0) [Suhler] No action required.
- ADT-2: Internet ADT (iADT) (07-469r3) [Suhler] To be revised and discussed at the next teleconference.

The group also reviewed pending work, ADI: Features for ADC-3 and ADT-3 (08-147r0) [Suhler].

Future Meetings

We request permission to hold two teleconferences before the next plenary week, on 4 June and 18 June, 8:00 AM – 10:00 AM PDT. Details will be announced on the T10 e-mail reflector.

Meeting requirements for July will be the same as for this week, for the ADI-2 meeting to begin Monday upon completion of the SMC-3 meeting and to end at 7:00 PM.
