Introduction

This document tracks proposals for new additional sense codes to be specified in SMC-3.

Discussion

The new additional sense codes listed in this document reflect the new sense codes agreed to by the working group from among those listed in document T10/08-039 (most are present in this document, with only a few having been removed or modified as a result of the discussions).

This document will be updated as owners are assigned and corresponding proposals drafted for all new additional sense codes.

New Additional Sense Codes Dispositions

Sense Code	Note	Owner, Document
MECHANICAL POSITIONING ERROR – UNABLE TO MOVE		
MECHANICAL POSITIONING ERROR – POWERED OFF		
MECHANICAL POSITIONING ERROR – POSITION NOT REACHED
