

ENDL TEXAS

Date: 15 July 2008
 To: T10 Technical Committee
 From: Ralph O. Weber
 Subject: Long-standing keyword omitted from Style Guide

Introduction

For many years SCSI standards have included 'expected' as a keyword. At least the following standards and working drafts have included and used the 'expected' keyword:

| | |
|-------|-------|
| ADT-2 | SES |
| FCP-3 | SES-2 |
| FCP-4 | SMC-2 |
| MMC-5 | SMC-3 |
| SAT | SSC-2 |
| SAT-2 | SSC-3 |
| SBC | SPC |
| SBC-2 | SPC-2 |
| SBC-3 | SPC-3 |
| SBP-2 | SPC-4 |
| SBP-3 | |

Revision History

r0 Initial revision

Unless otherwise indicated additions are shown in **blue**, deletions in ~~red-strikethrough~~, and comments in **green**.

Proposed Changes in the Style Guide

...

3.3 Keywords

Editor's Note 8: Changes in the keyword definitions or the addition of keywords requires a specific vote by the organization responsible for approving the draft standard (e.g., T10, T11).

3.3.1 expected: A keyword used to describe the behavior of the hardware or software in the design models assumed by this standard. Other hardware and software design models may also be implemented.
