Mr. John Lohmeyer
Convenor, X3T10
AT&T/NCR
1635 Aeroplaza Drive
Colorado Springs, CO 80916

Dear John:

At its January 1994 meeting, OMC reviewed a number of Project Proposals from Standards Development Organizations outside the X3 arena. These Project Proposals, distributed through the ANSI Project Initiation Notification System (PINS) were forwarded to OMC for review as part of the ongoing standards coordination responsibilities of the ANSI Information Systems Standards Board (ISSB).

One of these PINS from the IEEE concerned "Standard for Storage System Management Interfaces and Managed Object Definitions (SSS.MGT)". A copy is attached.

OMC felt that this project may be of interest to X3T10. If it is, would you establish liaison with the IEEE group involved to ensure that there is no overlap or duplication between their work and the work of X3T10. Should a problem arise in this regard where OMC’s assistance is needed, we will be happy to consider this project further.

Sincerely

WILLIAM C. RINEHULLS
Chairman, OMC

INFORMATION SYSTEM STANDARDS BOARD

Transmittal of Project Initiation Notification System Form for ISSB Review

Project Title: Standard for Storage System Management Interfaces and Managed Object Definitions (SSS.MGT)

Project Designation: IEEE 1244.5

Source: Computer Society Mass Storage Systems & Technology Technical Committee

The attached Project Initiation Notification System Form has been submitted by the above-referenced standards developer for ANSI’s information. If potential overlap/duplication areas are noted, or if further information is desired, members may contact the standards developer, the ISSB Chairman or Secretary, or other organizations as appropriate in order to pursue informal resolution where possible.

Information concerning this project has been entered into the ANSI database.
