

X3 SUBGROUP LETTER BALLOT

Authorized by X3 Procedures -- Distributed by X3 Subgroup X3T10

Reference Documents: X3T10/992D rev 16	Doc: X3T10/94-091r0 Date: April 8, 1994 Proj: 992-D Ballot Period
Ballot Closes NOON DATE: Thursday -- May 12, 1994	Return to: John B. Lohmeyer AT&T/NCR Microelectronics 1635 Aeroplaza Dr. Colo. Spgs., CO 80916 Fax: 719-597-8225

Subject: **Approval of forwarding the SCSI-3 Serial Bus Protocol (SBP) working draft revision 16 (in the April 1994 mailing) to X3 for first public review.**

Statement: **The SCSI-3 Serial Bus Protocol (SBP) document is part of the SCSI-3 family of standards projects. SBP defines the protocol for transporting SCSI commands, status, and data over the proposed IEEE 1394 High Performance Serial Bus.**

Question: **Do you approve of forwarding SCSI-3 Serial Bus Protocol working draft revision 16 to X3 for further processing (first public review)?**

YES¹ []

NO² []

(Please Print)

Principal [] Alternate [] Date: _____

¹ American National Standards are developed by the voluntary participation of all parties and with the intention and expectation that the standards will be suitable for wide application. Since their use is likewise voluntary, an affirmative vote does not commit an organization or group represented on the committee to the use of the American National Standard under consideration.

² If you find that you cannot vote YES and wish to vote NO, please state this and explain the reasons for your position on a separate sheet(s) with each response numbered, and with each page numbered and titled to identify the corresponding Letter Ballot. Electronic submissions of your comments are vastly preferred to expedite the response process. ABSTENTIONS are not permitted on technical issues.
