Subject: Provision of X3.170 ESDI to the ITTF for Publication of IS 10222

More than two years ago there was a series of letters traded on this subject. The last two letters were pertinent to this renewed request. Jean-Paul Emard's letter of 2/20/92 provided the authorization from X3 for the transfer of a camera ready copy. There was a follow up letter from ANSI (I think Beth Somerville) that indicated the camera ready copy of X3.170 was being sent to the ITTF for publication of IS 10222. Unfortunately I do not know what I have done with a copy of that letter.

At the last meeting of SC 25 I asked the ITTF representative why IS 10222 ESDI was not published after ANSI sent them the camera ready copy. I was shocked when he checked and informed me they do not have any record of having received the copy.

Since X3.170 has just recently been reaffirmed it is not prompt, but still important to send the camera ready copy to the ITTF for publication as IS 10222. Would you please make the necessary arrangements to have the copy sent by urgent delivery. Thanks for your help.

G.E. Milligan  
X3T10 International Representative
