X3T10/95-124 rev 0

To: X3T9.2 Committee (SCSI)

From: George Penokie (IBM)

Subject: FCP Public Review Comments

The following public review comments on the SCSI-3 Fiber Channel Protocol Standard (X3T10/993D):

1- Page 58 Section C.1 - The statement 'based on the SCSI committee's RAID addressing model' should read 'based on the addressing model contained within the SCSI-3 Controller Commands Standard (X3T10/1047D)'

2-Page 58 Section C.2 - The section name should be changed to 'Definition of SCSI-3 Controller Commands (SCC) addressing model'

3-Page 58 Section C.2 Paragraph 1 - In the first sentence the statement 'RAID addressing model' should be 'SCC addressing model' and the statement 'SCSI disk array (SDA)' should be 'SCSI-3 storage array'. In the last sentence the statement 'of an SDA logical unit, all physical SCSI logical units, and volume logical units.' should be 'of an SCSI-3 storage array, all peripheral device logical unit numbers, and all volume set logical unit numbers.'

4-Rest of Annex C - All 'SDA' should be changed to 'SCSI-3 storage array'.

5-Page 58 Section C.2 equations at end of page - The following should be changed as indicated:

P=Peripheral device

V=Volume Set

B=SCSI bus within the SCSI-3 Storage Array

6-Page 58 Section C.2 last sentence on page - The statement 'address of

a Volume' should be 'address of a volume set'

7-Page 59 Section C.2 Table 44 - 'Physical logical unit/SDA' should be 'Peripheral device logical unit/SCSI-3 storage array' and 'Volume logical Unit' should be 'Volume set logical unit'.

8-Rest of Annex C - All 'RAID' should be changed to 'SCSI-3 storage array'.

9-Rest of Annex C - All 'physical device' should be changed to 'peripheral device'.

10-Page 59 Section C.3 first sentence - The statement 'logical volumes' should be 'volume sets'.

11-Page 60 Section C.3.2 - The title of this section should be

'Addressing of volume set logical unit: example'

12-Page 60 Section C.3.2 first and second sentence - The statement 'more disk drive Volumes. Volumes managed' should be 'more volume sets. Volume sets managed'

13-Page 60 and 61 Section C.3.2 - The term 'physical logical unit' should be 'peripheral device logical unit'. contained within the body of the standard. If it remains it may cause confusion.
