

**Comment Resolutions for Project Proposal for ATA+PI:**

The ad hoc reviewed the comments accompanying the ballot and recommended responses to the issues raised as follows:

They voted that:

(1) a statement be added to the ATA+PI project proposal that it is a follow-on project to ATA-3 (2008) and ATAPI (1120) as a response to the comments from Dal Allan.

(2) profiles/service interface for system issues per device type be included in the scope of the ATA+PI project proposal.

(3) Seagate comment #3 be rejected.

(4) a note be added to legal considerations regarding the security patents unanimous.

(5) X3T10 reject the WD comment.
