Subject: Re: Public Review Comment #1
X3.292:199x, SCSI-3 Interlocked Protocol (SIP)

Dear Ron,

Thank you for your comment on SIP:

"All the normative references should be removed from clause 2 except for the SCSI-3 Architecture Model Standard (X3.270-1996) and the SCSI-3 Parallel Interface Standard (X3. 253-199x). The other documents listed are not referenced in any part of SIP."

X3T10 has accepted your comment and prepared revision 10 of SIP with the requested change. Other substantive changes were made, so SIP is being forwarded for a second public review.

Thank you,

John Lohmeyer, X3T10 Chair
