Subject: Forwarding SSA-TL2 to first public review

Statement: X3T10.1 forwarded SSA-TL2 Rev 3 as modified to X3T10 by
a vote of 10:1:0:1 and X3T10 authorized a letter ballot on
forwarding SSA-TL2 to first public review. The X3T10.1
negative was from VLSI Technology and included the
following reason: "VLSI disagrees with the specification
of the extended distance option. The specification
requires a new link reset frame format. A new link
reset frame format should include the unique id."

Question: Do you approve of forwarding SSA-TL2 Rev 4 to X3 for
further processing toward first public review?

(1) American National Standards are developed by the voluntary
participation of all parties and with the intention and
expectation that the standards will be suitable for wide
application. Since their use is likewise voluntary, an
affirmative vote does not commit an organization or group
represented on the committee to the use of the American National
Standard under consideration.

(2) If you vote NO, your ballot must be accompanied by reason(s)
for your position. Provide an electronic copy of your comments
with each comment numbered on the WWW ballot form or send them
by email to john.lohmeyer@symbios.com.

ABSTENTIONS are not permitted on forwarding documents.
