Comments attached to No ballot from Edward A. Gardner of Ophidian Designs:

It appears, from the ballot, that VLSI's negative vote remains unresolved. I would like to see a response from X3T10.1 on VLSI's comment before approving this.

If X3T10.1 has already responded to VLSI's comment, please refer me to the relevant document and I will amend my vote.

Comments attached to YesC ballot from Gene Milligan of Seagate Technology:

The file I downloaded was defective and I could not review the document. Please check the draft to see if it has the same type of problems as outlined in the other SSA drafts.
