Subject: Transmittal of Tutorial for SCSI use of IEEE registered company_id

Dear Anita,

Attached please find a Tutorial for SCSI use of IEEE registered company_id, the annex from NCITS document T10/97-101r2. The T10 Technical Committee has approved this tutorial and authorized us to provide this document to you.

For the convenience of IEEE members, I am also including the text of NCITS document T11/96-467r2 as a separate document. This document, approved by the NCITS T11 technical committee, provides useful background and reference information which is not yet published in an ANSI standard.

Thank you,

John Lohmeyer, T10 Chair and Robert N. Snively, FCP Project Editor
