IBM-1) Change header from X3T10.1 / 1146D rev 3a to X3T10.1 / 1146D rev 4
RESPONSE: Accept as written

IBM-2) 4: Add In case of conflict, figures take precedence over tables and both figures and tables take precedence over text.
RESPONSE: Accept as written

Comments attached to No ballot from Edward A. Gardner of Ophidian Designs:

OPH-1) It appears, from the ballot, that VLSI's negative vote remains unresolved. I would like to see a response from X3T10.1 on VLSI's comment before approving this. If X3T10.1 has already responded to VLSI's comment, please refer me to the relevant document and I will amend my vote.

RESPONSE: VLSI s response only concerned SSA-TL2 related to adding a Unique ID to the Link Reset frame, and does not impact SSA-PH2. See SSA-TL2 comments for resolution (a note has been added).

Comments attached to YesC ballot from Gene Milligan of Seagate Technology:

SEA-1) The file I downloaded was defective and I could not review the document. Please check the draft to see if it has the same type of problems as outlined in the other SSA drafts.

RESPONSE: The document was in the X3T10 9606 mailing and as been verified as good. The single must is removed in Annex K paragraph 2 by removing the word must . The two occurrences of can are removed by removing both occurrences of it can be seen that . See the comment resolution for either SSA-TL2 or SSA-S3P for resolution of your other concerns.
