SUBJECT: Drawings for SCSI Parallel Interconnect 2 (SPCI-2) Document

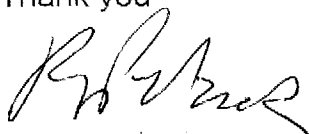

Dear Larry:

The drawings for the referenced document are now initially completed subject to any further modifications you may have. I am providing a hard copy "check print" for you to see what has been done to the figures and to use as mark-up for any changes or fixes. Please note on Figs. 21, 25, 27, and 32, there are several variations. . .to allow you to pick what may work better in either the display viewing or the hard copy versions. I did not draw figures 37 and 38 per your instructions. Figs 22 and 24 are the only rotations.

The CAD drawings have been converted to DXF files. When doing the final loading, please be aware of the variations for Figs. 21, 25, 27, and 32 and select out the ones you want to use.

Invoice 9717 for \$3,139.25 is enclosed. It is a little less than I quoted. Please contact me if I can be of any further help.

Thank you

R. F. Palasek
