 (1) American National Standards are developed by the voluntary
 participation of all parties and with the intention and
 expectation that the standards will be suitable for wide
 application. Since their use is likewise voluntary, an
 affirmative vote does not commit an organization or group
 represented on the committee to the use of the American National
 Standard under consideration.

(2) If you vote NO, your ballot must be accompanied by reason(s)
 for your position. Provide an electronic copy of your comments
