Subject: Forwarding RBC to first public review

Statement: This draft standard specifies the functional requirements
for the SCSI Reduced Block Command set (RBC). RBC permits
SCSI block logical units such as flexible disks, rigid disks,
optical disks, etc., to attach to computers and provides the
definition for their use.

Question: Do you approve of forwarding RBC Rev 5 to NCITS for
further processing toward first public review?

(1) American National Standards are developed by the voluntary
participation of all parties and with the intention and
expectation that the standards will be suitable for wide
application. Since their use is likewise voluntary, an
affirmative vote does not commit an organization or group
represented on the committee to the use of the American National
Standard under consideration.

(2) If you vote NO, your ballot must be accompanied by reason(s)
for your position. Provide an electronic copy of your comments
with each comment numbered on the WWW ballot form or send them
by email to lohmeyer@ix.netcom.com.

ABSTENTIONS are not permitted on forwarding documents.

This is a secret ballot (see NCITS rules); please do not disclose
your vote during the ballot period.
