Subject: Forwarding MMC-2 to first public review

Statement: This working draft standard defines the SCSI-3 command set
extensions to access multimedia Features for all classes of
SCSI-3 devices. The applicable clauses of this standard when
used in conjunction with the SCSI Primary Commands
specification, SCSI-3 Block Commands, and other applicable
command set documents pertaining to the subject device class,
define the full standard set of commands available for that
device in the SCSI-3 environment.

Question: Do you approve of forwarding MMC-2 Rev 8 to NCITS for
further processing toward first public review?

(1) American National Standards are developed by the voluntary
participation of all parties and with the intention and
expectation that the standards will be suitable for wide
application. Since their use is likewise voluntary, an
affirmative vote does not commit an organization or group
represented on the committee to the use of the American National
Standard under consideration.

(2) If you vote NO, your ballot must be accompanied by reason(s)
for your position. Provide an electronic copy of your comments
with each comment numbered on the WWW ballot form or send them
