```
     Subject: Forwarding SSC to first public review
```

```
   Statement: This working draft standard defines the SCSI-3 stream device
              command set that permits SCSI streaming devices such as tape,
              printer, and communication devices to attach to computers and
              provides the definitions for their use.  Note: This ballot
              supercedes the previous letter ballot (97-015) on forwarding
              SSC rev 9.
```

```
    Question: Do you approve of forwarding SSC Rev 17 to NCITS for
              further processing toward first public review?

(1) American National Standards are developed by the voluntary
participation of all parties and with the intention and
expectation that the standards will be suitable for wide
application. Since their use is likewise voluntary, an
affirmative vote does not commit an organization or group
represented on the committee to the use of the American National
Standard under consideration.

(2) If you vote NO, your ballot must be accompanied by reason(s)
for your position. Provide an electronic copy of your comments
with each comment numbered on the WWW ballot form or send them
