Results of Meeting

1. Opening Remarks

John Lohmeyer, the T10 Chair, called the meeting to order at 9:00 a.m., Thursday November 4, 1999. He thanked Larry Lamers of Adaptec for hosting the meeting.

John said that NCITS Subgroup Membership forms and the T10 Mailing Subscription form were available on the document table. He said that people should use the NCITS forms to insure the NCITS Secretariat has the latest membership information. These forms should be mailed directly to the NCITS Secretariat.

As is customary, the people attending introduced themselves and a copy of the attendance list was circulated. Copies of the draft agenda and general information on T10 were made available to those attending.

2. Approval of Agenda

The draft agenda was approved with the following additions/changes:

- 10.2.1 Project proposal for object-oriented disk command set (OSD) (99-312r0) [Houlder]
- 10.2.2 Project Proposal for SCSI Architecture Model - 3 (SAM-3) (99-293r1) [Weber]
- 10.2.3 Project Proposal for SCSI Primary Commands - 3 (SPC-3) (99-294r1) [Weber]
- 10.2.4 Project Proposal for SCSI Block Commands - 2 (SBC-2) (99-292r1) [Weber]
- 10.2.5 MRIE behavior with TEST bit asserted (99-208r2) [Elliott]
- 10.2.6 List lengths that exceed maximum allocation length (99-258r2) [Penokie]
- 10.2.7 Description Lengths for 5D ASC/ASCQs (99-266r2) [Weber]

- 10.2.9 The MAMA bit (99-263r1) [Oetting]
- 10.3 READ/WRITE BUFFER Behavior During Domain Validation (99-306) [Lamers]

The following agenda items were added/revised during the course of the meeting:

11.2.1 Editing RBC for ISO (99-284r0) [Roberts]

3. Attendance and Membership

The membership requirements were reviewed. NCITS rules permit one vote per organization. An individual from a new organization must attend two out of three consecutive plenary meetings. He/she may apply for voting membership the second meeting via a letter to the Chair of T10. The individual may apply for membership and begin voting at anytime following adjournment of the first meeting. Typically, the individual applies for membership and start casting votes at the second plenary meeting. Working group and other ad hoc meetings do not count toward attendance requirements.

An option that allows a person attending their first meeting to become a voting member immediately following that meeting, provided their NCITS fees have been paid, permits a new member to vote on letter ballots issued between his/her first and second meetings. Unfortunately, this option also means that the new organization is immediately in attendance jeopardy.

To maintain membership, organizations must pay the NCITS Service Fee (\$300). The ANSI International Program Fee (also \$300) is billed at the same time.

John briefly discussed the mailing fees. Complete pricing information is contained in the 2000 membership form (available at ftp://ftp.t10.org/t10/mem_form.txt).

There are also minimum attendance requirements to maintain voting membership on T10. If a member organization fails to attend two of the last three T10 meetings, they are warned that failing to attend the next T10 meeting would result in their membership being terminated. The Chair said he had sent letters to 14 people from 7 organizations informing them that their membership was in jeopardy due to non-attendance (see 99-014r0) and that their membership would be terminated if they did not attend this meeting. The following organizations were in attendance jeopardy:

AMP, Inc.
Apple Computer
General Dynamics
Hewlett Packard Co.
Hitachi Storage Products
Honda Connectors
Iomega Corp.

All of the organizations were present except:

Apple Computer

They were terminated due to lack of attendance (i.e., the principal member was changed to observer status and the first alternate member, if any, was dropped; additional alternates, if any, were changed to observers).

Mylex was removed from the T10 membership role since the company was purchased by T10 member IBM. The T10 members from Mylex were made alternate members for IBM. Unitrode was removed from the T10 membership role since the company was purchased by T10 member Texas Instruments. The T10 members from Unitrode were made alternate members for Texas Instruments.

No organizations requested new (or reinstated) membership.

The T10 membership during the meeting was 42 organizations down from 45 organizations following the last meeting. Enclosure (1) is the list of the people present at the meeting and enclosure (2) is the current T10 membership list.

3.1 Voting procedures

John Lohmeyer reported that NCITS has approved changes to two week rule and abstentions. John noted that he had been unable to review the details of the changes and would follow the new procedures to the best of his ability.

For the two-week rule, the two-week period is measured to the start of the relevant meeting. Also, documents revised at a meeting are not subject to the two-week rule provided the document being modified met the two-week rule. John stated that he will follow to, the best of his ability, the new rule, allowing documents that were available two-weeks prior to the meeting to be processed even if the document is revised during a working group meeting earlier in the week.

The rule about not allowing abstentions on technical issues is has been revised to permit abstentions provided a reason is stated. Such abstentions are not considered in calculating whether the motion met the 50% or 2/3rds voting requirements. John stated that he will be allowing abstentions as per the new rule.

4. Approval of Minutes - September '99 Meeting - Huntington Beach, CA (T10/99-269r1)

The minutes were approved as written.

5. Document Distribution

Members who have any problems with their mailing subscription should deal directly with Monica Vago (mvago@itic.org) (202) 626-5741.

John Lohmeyer requested that all documents for the next mailing be in his hands in electronic format by 10:30 a.m. on Thursday November 11, 1999. Documents received after this time will go into a subsequent mailing.

John reminded the committee of the requirements for document submission. Since T10 meets its document retention requirements by preparing mailings, documents included in the mailing must be suitable for archiving. This means that native-format and/or Portable Document Format (PDF) electronic originals with proper identification must be submitted.

The electronic copies can be sent directly to John by email (at lohmeyer@t10.org), or they can be transferred by ftp protocol to ftp.t10.org and placed in the /incoming directory. In the latter case, please also send email to John informing him of the file name and location of the file.

Minutes are available on the T10 World Wide Web page (see below), and are distributed to the T10 Reflector.

To be added to the T10 Reflector, send an email to majordomo@t10.org with the line 'subscribe t10' in the message body.

The NCITS Secretariat maintains a World Wide Web page at <http://www.ncits.org/>. LSI Logic maintains a World Wide Web page on behalf of T10 on a server provided by the SCSI Trade Association at:

Roger Cummings reported on the mirror of the T10 web being hosted by DPT at <http://www.t11.org/t10> (see 99-346r0).

6. Call for Patents

This is a regular agenda item to identify any potential patent issues with developing standards and technical reports.

A document is available from ANSI, "Procedures for the Development and Coordination of American National Standards", at no charge. This document is also on the WWW at http://www.ncits.org/help/ansi_sdo.html. Section 1.2.11 contains the ANSI patent policy. Amy Marasco manages patent issues for ANSI and can be contacted at amarasco@ansi.org or 212-642-4954.

A call for patents was made. There were no responses.

8. Project Status Reports

8.1 Project Status Summary and NCITS Liaison [Lohmeyer]

John Lohmeyer said that the current T10 project status summary was included in the T10 Information Packages distributed prior to the meeting and will be included in the mailing as usual.

8.2 SCSI Common Access Method - 3 (CAM-3) Status {Project 990-D} [Dallas]

In the absence of Bill Dallas, no report was presented.

Bob Snively took an action item to prepare FCP-2 revision 4. John Lohmeyer took an action item to conduct a letter ballot on FCP-2 revision 4.

8.5 SCSI Architecture Model - 2 (SAM-2) {Project 1157-D} [Weber]

Ralph Weber reported that he has been unable to develop the proposals for specific additional changes to SAM-2 regarding multi-port devices. He noted that a new revision of SAM-2 will not be generated at this time, due to the small number of proposals and the minimal content of the change requests.

8.6 Multimedia Command Set - 2 (MMC-2) Status {Project 1228-D} [Roberts]

Ron Roberts reported that he has received changes from the ANSI editor (Harvey Rosenfeld). He reported that two comments have been received during public review (99-333). He stated that the recommendation of the working group is that both comments not be accepted.

Pete McLean moved that T10 forward the working group recommended response to the public review comments to NCITS and that T10 recommend to NCITS that MMC-2 be forwarded to ANSI publication. Bill McFerrin seconded the motion. The motion passed 31:0:0:11=42.

John Lohmeyer took an action item to write letters to the people who commented on MMC-2 thanking them for comments, to forward 99-333r0 to NCITS as the resolution for the public review comments on MMC-2, and to ask NCITS to forward MMC-2 to ANSI for publication.

8.7 SCSI Primary Commands - 2 (SPC-2) Status {Project 1236-D} [Weber]

He stated that SPC-2 revision 14 will be generated following this meeting and will contain all changes approved at this meeting.

Ralph Weber moved that SPC-2 revision 12 be accepted as a committee draft for project 1236-D. Neil Wanamaker seconded the motion. The motion passed 28:2:0:12=42. Ralph Weber took an action item to create a SPC-2 version descriptor for SPC-2 revision 12.

John Lohmeyer reported that RBC is in second public review closing 7 November.

8.9 SCSI Parallel Interface - 3 (SPI-3) {Project 1302-D} [Penokie]

John Lohmeyer reported that the letter ballot on SPI-3 passed 34:7:1:3=45 (99-016). George Penokie started resolution of the approximately 400 comments at the Physical Working Group meeting (minutes in 99-308).

George reported that resolution has been reached for most of the technical issues. He asked the committee to review the fairness annex, which would be rewritten if one letter ballot comment is accepted. George stated that the comments resolution process will continue in private conversations and the meeting proposed for Rochester in December. George stated an intention to have a comments resolution document available for approval at the January meeting.

8.10 MultiMedia Command Set - 3 (MMC-3) {Project 1363-D} [Roberts]

John Lohmeyer reported that MMC-3 revision 00a will be available on the web site in a few days. Ron Roberts reported that revision 1 will be available in time for the March meetings. Ron noted that the new streaming data material (from the Mt. Fuji working group) first appeared in revision 00a and will be corrected and enhanced in MMC-3 revision 1.

Ron Roberts stated that Bill McFerrin will be reporting for MMC-3 in the future.

8.11 Reduced MultiMedia Command Set (RMC) {Project 1364-D} [McFerrin]

Bill McFerrin reported that the revision 1 of RMC had been distributed. John Lohmeyer asked if the revision had been provided for the T10 web site and Bill agreed to provide it.

8.12 SCSI Parallel Interface - 4 (SPI-4) {Project 1365-D} [Penokie]

George Penokie reported on the working group activities on SPI-4 (minutes in 99-308). He stated that the first draft of SPI-4 probably will not be available until March or April. He noted that significant effort is required on the part of many companies to get the SPI-4 proposals polished enough for a first SPI-4 draft.

8.13 SCSI Domain Validation Technical Report (SDV) {Project 1378-DT} [Lamers]

Larry Lamers reported that the first draft of SDV will be available before February, maybe as early as December. He stated that the project is generating a lot of interest and that teleconferences may be used to work on some of the early issues.

8.14 SCSI on Scheduled Transfer (SST) {Project 1380-D} [Woelz]

Don Woelz reported that the entire SST document (99-276r0) was reviewed at a T11.1 working group meeting. Don requested authorization for review meetings held during the T11 meeting weeks in December and February (see item 14.1).

Ralph Weber took an action item to create an SPC-2 version descriptor for SST.

8.15 SCSI Medium Changer Commands - 2 (SMC-2) {Project 1383-D} [Oetting]

Erich Oetting reported that the first revision of SMC-2 should be available in January. He noted that the tape alert information will be the principle new content in the first SMC-2 revision.

Ralph Weber took an action item to create an SPC-2 version descriptor for SMC-2.

9. Old Business

9.1 Resolution of SSC letter ballot comments (99-011r2) [Peterson]

Erich Oetting moved that the SSC project editor be instructed to generate SSC revision 22 by incorporating into SSC revision 21 the changes approved under agenda items 10.2.8 and 10.2.9; and to accept 99-228r4 as resolving the SCC letter ballot comments; and to accept SSC revision 22 as resolving the letter ballot comments. The motion passed 29:0:2:11=42. George Penokie stated that his abstention was based on a concern that his comments may not have been fully resolved. Doug Wagner stated that his abstention was based on a lack of expertise in this specific project.

Based on the successful resolution of the letter ballot comments Stewart Watt asked that the HP no vote on the SSC letter ballot be changed to a yes vote. John Lohmeyer noted that SSC still will be forwarded to NCITS with two unresolved negative votes; from IBM and Sun Microsystems.

Dave Peterson took an action item to generate SSC revision 22. Ralph Weber took an action item to create an SPC-2 version descriptor for SSC revision 22. John Lohmeyer took an action item to forward SSC revision 22 to NCITS with the two unresolved negative votes for processing toward first public review.

11. ISO

11.1 ISO Report [Milligan]

Gene Milligan provided the following ISO report:

The responses to MMC and SBC CD letter ballot comments are on hold until the issue of canceling the Fast Track DIS ballot is resolved. See the September T10 minutes (99-269). The T10 recommendation to cancel Fast Track was approved by NCITS and forwarded to the JTC 1 Secretariat (ANSI). Action by ANSI is pending.

Completion of editing for the ISO/IEC comments by the technical editor on SMC, SES, and FCP is still pending and long overdue.

11.2 ISO Business [Milligan]

11.2.1 Editing RBC for ISO (99-284r0) [Roberts]

John Lohmeyer reported that Ron Roberts sent a quote of \$10,000 for converting RBC from the ANSI format to the ISO format. The quote can be found in 99-284r0. John noted that the T10 editors' fund should be able to cover cost. The group discussed whether RBC should be an ISO standard, options for getting the RBC editing done, and how fast track handling of RBC might affect the editing requirements. Don Tolmie was recommended as a possible alternate choice to perform the conversion. Several issues could not be resolved without the presence of Gene Milligan so the topic was deferred to the next meeting.

John Lohmeyer took an action item to contact Don Tolmie for an alternate quotation for conversion of RBC to ISO format.

12. Liaison Reports

12.1 T11 Liaison Report [Wanamaker]

Neil Wanamaker made an oral report to the committee and provided an electronic report in 99-339r0.

12.2 T13 Liaison Report [Milligan]

Pete McLean reported that T13 has withdrawn ATA-1. Review of the Signal Integrity annex in ATA-5 is completed and ATA-5 should go to letter ballot after the December meeting. The project proposal for ATA-6 was approved and collection of work items has begun.

12.3 SFF Industry Group [Allan]

Dal Allan provided the following electronic report for the minutes:

SFF Committee Report November 1999

The revised SFF-8045, SFF-8430 MT-RJ, and SFF-8441 VHDCI were approved for Publication and a number of specifications were Expired at their annual review because they have been incorporated into standards.

INF-8038 for Intel's Bus Master specification would have been renewed for another year except that Pete McLean advised that the contents of the scatter/gather list have been changed and it would be misleading if it was left available. It will be Expired.

The backplane project will analyze the 100-pin SCA-2 to determine whether it can meet the characteristics required of dual port 10 Gbit performance, each of which requires four sets of parallel 2.5 Gbs transfer pairs. The principles of SFF-8410 will be followed in the evaluation.

The issues raised by Bill Ham on the SFF-8053 GBIC have been resolved, and will be incorporated in the next revision.

The resistive tip for SCA-2 applications will not be specified unless there is a resurgence of interest in its benefits for hot plugging.

The dimensions for current generation 5 1/4" CD ROMs provided by Pioneer will be used to update SFF-8551.

There are differences between High Speed Serial Testing for copper and optical and the first draft of SFF-8412 for the latter will be in the next mailing.

There are several SSWGs in the coming months:

11/16-17	SFF-8412 and SFF-8410 SSWG
1/25-26	SFF-8412 and SFF-8410 SSWG
2/ 9-10	INF-8090 SSWG
2/22-23	SFF-8412 and SFF-8410 SSWG

14.1 Authorization of Working Group Meetings

John noted that the working group meetings are required to operate under the same voting procedures as does T10 (that is, one vote per organization) and the results of a working group are not binding on the parent committee. Ad hoc groups should strive to achieve consensus prior to bringing issues to T10.

John Lohmeyer moved that T10 authorize the T10-related meetings and events in the list above that had not previously been approved. Mark Evans seconded the motion. The motion passed 19:1:0:22=42. John noted that Gene Milligan had submitted a written No vote on this motion opposing the SPI-4 dates in December, which are in conflict with a T13 meeting, and opposed to the proposed February 2000 dates. While the February dates were changed in a manner that accommodates Gene, the December dates were unchanged. John interpreted Gene's written vote would remain No unless both dates were changed.

15. Adjournment

The meeting was adjourned at 12:35 p.m. on Thursday November 4, 1999.
