MEMORANDUM

TO: SCSI-2 Optical Working Group and X3T9.2 Committee

FROM: John Hoy and Jim Harper

DATE: January 27, 1987

SUBJECT: Read Defect Data Command (37h) for Optical Storage Devices

After review of the above command, we find that the command as defined in Section 8.2.12 (Pages 8-76 and 8-77) are useable for Optical Storages Devices as stated in the above section. Therefore, a reference in Sections 12 and 15 to Section 8 for a description of the Read Defect Data Command is sufficient.

Thank you.
